

CANADA-U.S. BORDER ACT BELIEVED NEAR

BRITISH SEND WARSHIPS TO EGYPT PORTS

Three Superdreadnoughts Dispatched From Malta as Precaution

Egyptian Reports Claim Discussion of Removal of Sirdar Grows Warm

Island of Malta, May 30.—The battleship Barham, the battleship Royal Sovereign, with Rear-Admiral Norris aboard and the battleship Malaya have received orders to sail immediately for an unknown destination.

PRECAUTIONARY MEASURE

London, May 30.—It was stated at the Foreign Office to-day that the British warships now en route to Egypt from Malta were being sent as a precautionary measure, such as the Government had taken on various previous occasions. From the tone of recent debates in the Egyptian Chamber, Downing Street officials say Egyptian extremists are trying to create a wholly artificial situation of tension.

POST OF SIRDAR IS ISSUED

Cairo, May 30.—Disagreement has arisen between the Egyptian and British Governments over the recent recommendation of the Egyptian parliamentary committee for the removal of the Sirdar as British commander-in-chief of the Egyptian army. The British Government has been growing for some days and seems to have reached a point where Lord Lloyd, British High Commissioner, has opposed the removal of the Sirdar and is reported to have received instructions from the British Government on this point, which will be presented to the Egyptian Cabinet.

The newspaper Siasah describes the position as very strained and the outcome as uncertain.

London, May 30.—According to The London Daily Mail, Lord Lloyd, British High Commissioner in Egypt, informed the Premier Sarwat Pasha, last week that the question of the Sirdar's removal had never entered into the agreement whereby Great Britain granted independence to Egypt, and Great Britain firmly maintained that the post of Sirdar must be held by a British officer.

NEW WORKERS CHEER CANADIAN SOLDIERS

Detachment of Montreal Highlanders March in Memorial Day Parade

New York, May 30 (Canadian Press).—The Canadian Black Watch received an enthusiastic welcome to-day. Marching in the Memorial Day parade under the auspices of the Grand Army of the Republic, the Canadian soldiers captured the hearts of the thousands of New Yorkers who saw them march along some of the city's main thoroughfares to the skirt of their regimental pipes.

The detachment comprised six officers and 100 non-commissioned officers and men of the Fifth Royal Highlanders of Montreal, commanded by Lieut.-Colonel J. D. Macpherson.

Chosen from the survivors of the regiment who went overseas with the First Canadian Contingent in the World War, they were loudly cheered as their medals, sashes and sporrans swung to the accompaniment of lively Highland tunes. The Canadian kilts were escorted by the John Purroy Mitchell post of the American Legion and accompanied by members of the British Great War Veterans of America.

A banquet to be tendered by the Canadian Society of New York this evening will precede the entrainment of the detachment for Montreal.

CLOUDBURST KILLS TWENTY

Ashland, Ky., May 30.—Twenty persons were reported killed last night by a cloudburst which struck Prestonsburg and surrounding towns, according to reports received to-day.

PLANS ATLANTIC AEROPLANE FLIGHT; CAPT. RENE FONCK

Montreal, May 30.—While the feat of Captain Charles A. Lindbergh was a magnificent one, it was of little scientific value, in the opinion of Captain Rene Fonck, famous French aviator, who is a visitor in Montreal to-day.

Asked if he intended to make a Transatlantic flight in spite of the disaster of his first attempt, which cost the lives of two of his assistants, Captain Fonck said:

"Of course. It is what I am here for."

He would not discuss his plans. Capt. Fonck arrived here last night for a two-day visit.

YOUNG BRIDE-ELECT CALLED BY DEATH

Bridal Gown to be Shroud For Hoquiam Golfer Who Was to Wed Here

Seattle, May 30.—Plans for a June 17 wedding in Victoria were rudely shattered when death stepped in last Friday afternoon and called Miss Genevieve Aurelia Anderson, twenty-five, secretary to L. L. Bates, general freight agent of the Admiral Line, it was revealed to-night.

She died suddenly as she was preparing to return to her home here from a Seattle hospital, where she had been a patient undergoing treatment for pleurisy for several weeks.

Tuesday at 1 p.m., wearing as a shroud the gown in which she had planned to be married, the body will be taken to the First Baptist Church for a short funeral service preceding burial at Hoquiam, her former home.

Friends revealed that secret plans for the June 17 wedding had been going forward for some time. She and her fiancé, J. A. Dunn, of Seattle, had made all arrangements for their marriage at Victoria at the conclusion of the Pacific Northwest Golf Association tournament, in which both were entrants, as representatives of the University Golf Club, of which Miss Anderson was a member and of which Dunn is a trustee.

Her sudden death, physicians reported, was due to formation of a blood clot in the pleural cavity. The only surviving relative is a sister in Hoquiam.

BORODIN AGAIN IS A HANKOW FIGURE

Russian Adviser to Radical Southern Chinese Leaders Returns There

London, May 30.—After an unsuccessful attempt to visit Changsha, says an Exchange Telegraph dispatch from Hongkong, Michael Borodin, adviser to the Hankow Government, returned to Hankow yesterday. His reappearance, the dispatch adds, was responsible for a certain amount of communist activity and anti-British posters are again appearing on walls. To-day was declared a general holiday and strenuous efforts are being made, the Exchange Telegraph correspondent says, to recreate a "people's revolutionary spirit."

MANUFACTURING SHOWS ADVANCE

Rapid growth in British Columbia's manufacturing is revealed by figures collected at the Department of Industries here and issued to-day.

These show that the Province is manufacturing 754 different articles now, while in 1922 only 319 different articles were made here as compared with less than 100 in 1907.

HEAVY CROP OF BERRIES IS FORECAST

Good Prices Expected From Prairie Centres

Strawberries will this summer be unusually fine in quality and in generous supply, according to leaders of the Gordon Head and Keating berry culturists. Possibly fifty cars of berries will be shipped to the prairies in the season, as compared with the twenty-nine cars shipped last year.

Despite heavy frost at blossoming time, which abolished all possibility of an early crop and a long season, a heavier yield per acre is confidently anticipated by all the growers. In addition, there is a fifteen per cent increase in acreage in Gordon Head and a forty per cent addition to cropped land in Keating district.

The first crate of berries are expected to arrive from Gordon Head next Monday, small patches of Marshall berries being almost ready for the local market. Magons will not be ready for another week at least, and the season has resulted in avoidance of all competition, and there is every possibility that the net price per crate received by the association may attain \$3.00. This was the return earned in 1925, and compares with a net of \$2.52 obtained in 1926, when competition was severe in the prairie centres. As usual, special price concessions will mark ripe fruit distributed locally.

Up to the present no contract for jam berries has been signed; the factories offer 8 1/2 cents, and the growers are standing out for nine cents a pound. Last year jam fruit earned eleven cents. Because of this difference and the brevity of the picking season expected, preparations are being made for crating a far larger percentage of the crop than is normal, the crate fruit holding prospect of much larger profit to the growers, a reversal of the conditions of 1926.

SOVIET NOW PLANS TO RAISE LOANS

Moscow States 400,000,000 Rubles Will be Used For Defence of Russia

Moscow, May 30.—M. Litvinoff, Assistant Commissioner of Foreign Affairs and former Soviet Ambassador to Great Britain, in a note handed to the British Charge d'Affaires here Sunday declared that the Soviet Government had long prepared for a rupture.

The whole world saw the cause of the rupture, he added, was the defeat of the Conservative Government's policy in China and an attempt to mask that defeat by a diversion directed against the Soviet. He hoped the time was near when the British people would find a way of realizing, unhampered, their ambitions for normal relations with the Soviet.

M. Litvinoff emphatically denied all charges of violating the trade agreement. The charges, he declared, were based on false information and forged documents with which the British Government freely operated.

An appeal issued to-day in the name of the various Moscow unions urges workers and peasant youths to enlist voluntarily in the Red army. It recommends that all unions send the most effective manner to develop its military and economic defence.

The Council of People's Commissars has announced its decision to float two internal loans of 200,000,000 rubles each. It asks a nation-wide subscription of these loans for the national defence.

Chairman Tumsky of the Soviet trades unions, asserting the British note points to the certainty of an open attack on the Soviet, may be in a month or may be in a year, declares the country must utilize the interim in the most effective manner to develop its military and economic defence.

The newspaper Pravda says the rupture is "the greatest treason to the cause of European peace since 1914," and that the signing of war upon the Soviet Union has never been more imminent since the Polish war of 1920.

BEATTY FINDS CANADA'S MORALE AT HIGH POINT

Greater Confidence Than at Any Time Since War Inspires Country

Sees B.C. Mineral Exploitation Factor in Progress; Prairie Outlook Not So Bad

"Greater confidence exists to-day in the future of Canada than at any time since the war," said E. W. Beatty, president of the Canadian Pacific Railway, to The Victoria Times to-day, in summarizing conditions he found in his trip of inspection across the country, which he completed on his arrival here Sunday afternoon.

"Throughout the whole country there has been a marked improvement in the morale of Canadians," Mr. Beatty went on.

"I am still satisfied that the next few years should see a very marked improvement in the general conditions in Canada and an expansion of the country's trade."

"We have all the essentials for prosperity and the progress which has been made during the sub-normal conditions which followed the war, gives good ground for believing that still greater prosperity awaits us under the more normal conditions which now prevail."

"Our great danger is that political considerations may dictate the economic policies of the country and this tendency Canadian business men should, I think, exert every effort to defeat."

"The general business outlook in Canada is excellent though we are all naturally a little anxious in consequence of the unusual weather prevailing on the prairies, which may affect a reduction in wheat acreage in crop."

"British Columbia is making steady progress and the further exploitation of its undeveloped mineral wealth is bound to have a very material influence on the province's progress."

"The immigration situation in Canada is undoubtedly better and the number of immigrants admitted to Canada this year should substantially exceed the number for any year since 1914."

U.S. Minister is To be in Ottawa Next Wednesday

Ottawa, May 30.—William Phillips, first United States Minister to Canada, will present his credentials to the Governor-General at Government House at 4 o'clock next Wednesday afternoon. It was officially announced to-day.

Mr. Phillips, it is intimated, will leave for Washington at the end of the week, but will return in time to take over his duties on July 1.

New Brunswick Riding to Elect A Liberal M.P.

Andover, N.B., May 30.—Decision not to contest the approaching election in the constituency of Carleton-Victoria, made vacant by the death of J. K. Fleming, Conservative, was the result of a convention of the Conservative Party in the dual constituency held on Saturday. The resolution not to contest the seat was unanimously passed. The resolution dwelt on the necessity of affording the present Government at Ottawa every facility for carrying out the recommendations of the Duncan report.

PLANE ON SEARCH MISSION FAILED

Machine Forced Down in Gulf of St. Lawrence; no Trace of Nungesser

Quebec, May 30.—A thrilling account of adventure on flight through the northlands of Quebec and Labrador in search of the missing French aviator, Nungesser and Gail, was told by A. P. Hebert of the Quebec Department of Lands and Forests on his arrival here to-day by steamer.

The hydroaeroplane, manned by Pilot Brochu, Mechanic Pargl and Mr. Hebert, left Quebec May 28. On the tenth day out the plane, after flying through violent storms, developed engine trouble in mid-air and a forced landing some distance from the shore resulted. The men paddled to land in a canoe they had with them and had to walk thirty-seven miles to the nearest village, Natashquan. The pilot and mechanic remained at the village while Mr. Hebert returned to Quebec by steamer.

Mr. Hebert said the plane was in good condition except for the engine, and that a new engine had been sent to arrive at Natashquan to-morrow, when the search would be continued in the north shore district of the Gulf of St. Lawrence.

BANDITS LOOT STORE VAULT AT NANAIMO

Thieves Make Haul of \$6,000 in Hand-padded Safe Cracking Job

David Spencer's Ltd. Department Store Entered

Nanaimo, May 30.—Some time between 10 o'clock Sunday night and 9 o'clock this morning yeggs blew the safe in David Spencer's Limited department store here and secured approximately \$6,000 in cash and cheques.

The job was done by experienced crackmen, who used stockings to cover their hands to prevent leaving fingerprints while working on the safe, police believe.

The safe was wrecked by the explosion, as far as can be ascertained.

Staff Sergeant Stephenson of the provincial police states the premises were intact at 10 o'clock Sunday night when examined during the usual patrol. Shortly before 9 o'clock, Oliver Eby, manager of the store, opened the main entrance and discovered the wrecked safe, which was located at the right of the main entrance, under steps leading to an upstairs office.

Police are working on a theory that the job was planned Tuesday, when 10,000 people visited Nanaimo for the Victoria Day celebration.

No arrest has been made.

Entry was gained through a skylight.

BRITISH TROOPS TO BE SENT TO TIENTSIN SOON

Shanghai, May 30.—In view of the reported successful northward drive of the Chinese Nationalist troops in Honan province, the British military authorities here have decided to send a battalion of British troops to Northern China. They will probably be stationed at Tientsin.

LONG ISLAND THUGS MADE \$90,760 HAUL

Mr. and Mrs. Jesse Livermore and Guests Were Robbed at Country Home

New York, May 30.—Two "gentlemen" burglars who obtained \$90,760 in jewelry and cash from the country home of Jesse L. Livermore, noted Wall Street trader, were hunted to-day throughout the exclusive Long Island world and in the New York underworld.

The gems and cash were taken from Mr. and Mrs. Livermore and their guests, Mr. and Mrs. Gary Aronson, shortly before dawn yesterday morning. Working with extreme politeness, and apologizing to their victims, the thieves returned other jewels worth \$69,000 on the fearful pleading of the women and ignored remaining valuables worth \$65,000.

The robbers were unmasked. They were about twenty-five years old.

Camp Fire Brings A Court Penalty

Nelson, May 30.—Before Magistrate Carmel here to-day, J. A. Ferguson of Nelson was convicted of lighting a camp fire before previously clearing away brush and debris the required distance, in contravention of the Forest Act, and was fined \$25.

PERSIA TO HAVE NEW CABINET

Tehran, Persia, May 30.—The Persian Cabinet, headed by Premier Mostofoot-Mamalek, has resigned.

Confederation Subject Of Canadian Club Speaker To-morrow

"The Miracle of Confederation" will be the subject of the address to be given by Major-General Sir Archibald Cameron Macdonnell, C.B., C.M.G., D.S.O., L.L.D., at the Canadian Club luncheon at the Empress Hotel, commencing at noon to-morrow. Sir Archibald, who commanded the First Canadian Division in the World War, is touring Canada under the auspices of the Association of Canadian Clubs.

AIDS IN SETTLING THE U.S.-CANADIAN BORDER DIFFERENCES

FRANK B. KELLOGG
Secretary of State of the United States

CHIEF JUSTICE TO BE ADMINISTRATOR

During the absence of Lieutenant-Governor Randolph Bruce in Britain during this summer, Chief Justice Macdonald of the B.C. Appeal Court will be administrator of the Province, it was announced from Ottawa to-day.

B.C. PRODUCTS WEEK OPENS

All Province Co-operating in This Year's Campaign

Everything indicates that "Buy B.C. Products Week" will be a great success. From to-day to June 4, all live progressive merchants will dress their windows with products of local farms and factories.

In response to appeals sent out to all retailers, hundreds of promises to dress windows have been received by the B.C. Products Bureau. From Stewart to Victoria, from Alberni to Fernie, merchants are displaying an unprecedented amount of enthusiasm, writing in for display and information.

Nor are the merchants alone in this regard. Service clubs, women's organizations, and other organized bodies are staging special B.C. products programmes. From Prince George Board of Trade, Cariboo Rotary Club, Pentiction Gyro Club, Nanaimo Rotary Club, Vernon I.O.O.F., Nanaimo's institutions at many outlying points, requests for speakers have been received.

Department stores are devoting tremendous window space almost entirely to British Columbia products, and are inserting blotters in their parcels—each blotter bearing a message urging the buying of British Columbia goods.

Point Grey, New Westminster, and Kelowna each are staging window play contests in addition to the B.C. Products Bureau contest. Point Grey Board of Trade is offering \$25.00 in money prizes, while Reeve Felton has donated a cup. A. W. McLeod, president of the New Westminster Board of Trade has also offered a cup for the best window display in his city, while the women's organization of Kelowna are offering special inducements in the interior city.

Manufacturers have been preparing splendid displays and are expending a great deal of money and labor in telling the people of their goods. "It now remains for the buying public to do the rest," says A. A. Milledge, chairman of the bureau. "If they co-operate, a great stimulus will be given to local industry, but the effort should not be confined merely to one week—it should be the aim of every citizen to give the preference to British Columbia products, second to Canadian goods, and then by products of the British Empire, price and quality being satisfactory throughout the year."

"Our factory products have increased from \$19,447,000 in 1900, to \$38,288,000 in 1905, to \$65,204,000 in 1910, to \$160,000,000 in 1920, to \$235,000,000 in 1924."

"Given proper support and encouragement, our factories can easily increase this figure and British Columbia can enjoy a lasting prosperity."

JOHN D. DODGE WAS ARRESTED IN DETROIT

Detroit, May 30.—John Duval Dodge, son of the late John F. Dodge, multi-millionaire automobile manufacturer, spent Saturday night locked up at police headquarters here on a charge of driving while drunk.

The arresting officer reported the Dodge car while being driven at a high rate of speed crashed into two parked machines.

U. S. REPLIES TO OTTAWA ON NEW BORDER RULES

Crossing of Citizens From Canada Daily to Work in United States Continues While Negotiations Proceed; In Note of Conciliatory Tone Secretary of State Kellogg Assures Ottawa He Desires Free and Friendly Border Crossing Privileges of Both Sides to Be Uninterrupted

Ottawa, May 30.—The United States Government has replied to Canada's note on the new United States border questions and it is expected an answer from the Canadian Government will be transmitted to United States Secretary of State Frank B. Kellogg within the next day or two through the agency of Hon. Vincent Massey, Canadian Minister at Washington.

The United States note promises every consideration for Canadian residents crossing the border daily to work in the United States border during the six months in which they must try to conform to the United States immigration law, and it conveys a virtual promise that British-born Canadians who cannot get a place on the quota this year will be granted an extension of time.

The note also promises continued study and co-operation with the Canadian Legation in Washington to "clear up difficulties and dissatisfaction with regard to border crossing," with a recommendation to Congress next session for the removal of anything inherent in the law "which tends to affect adversely the friendly relations between Canada and this country."

Satisfaction is expressed in Ottawa over the Washington promise of an extension of time for British-born Canadians who cannot get a place on the quota this year.

(Continued on page 31)

LINDBERGH'S PLANE SAVED FROM CROWDS

Only Trivial Damage Done by Great Throng at Field at Croydon, England

London, May 30.—In a talk with reporters here to-day, Captain Charles A. Lindbergh said he had found that the only damage to his Transatlantic aeroplane resulting from the tumultuous welcome at the Croydon aerodrome yesterday was a slight injury to the fabric. When asked if he was grateful for the police protection at the field for his arrival, he said:

"I was grateful all right, but I didn't see much protection. The worst part of flying to Europe on a ham sandwich is when you get here."

It is estimated the crowd at Croydon when the New York-Paris aviator arrived in his plane, the Spirit of St. Louis, from Brussels at 6 o'clock last evening numbered more than 100,000. The throng was described as one of the largest and most enthusiastic that ever assembled in this country to welcome a private citizen of any nation.

COMMITTEE SWEEP AWAY

As the plane alighted some distance from the airport, British Minister of Aviation, United States Ambassador Houghton and the other officials who were to receive Lindbergh, the great crowd broke through the police lines and soon the Air Minister, the Ambassador and the other officials were swept in different directions. Many silk hats were broken and many men's clothes were torn. The plans for the official reception were completely upset. Only the efforts of numerous police prevented (Continued on page 31)

SOUDERS WINS BIG AUTO RACE

Speedway, Indianapolis, Ind., May 30.—George Souders, of Lafayette, Indiana, driving his first major event, won the 500-mile automobile race over the Indianapolis Speedway to-day.

His average time was 57.34 miles an hour. He had a lead of about 7 1/2 miles at the finish.

Babe Stapp, driving relief for Wade Martin, was forced into the pits by a slippery clutch after he had only two more laps to go to land second place. This misfortune enabled Earl Devere to grab second place and \$10,000 as his reward.

RUSSIAN-BRITISH TRADE IS PLANNED

Acros Head Says Grain and Other Shipments Will be Continued

London, May 30.—What will probably be the final official British communication to the Soviet Russian mission in London will be delivered at Chesham House early this week. It will be a list of the names of those Russians who will be permitted to remain in London.

In a communication to the press to-day, M. Khinchuk, head of Acros Limited, the Soviet trading organization, said the work of such organizations as the Russian-British Grain Export Company and similar undertakings would be continued if no obstacles were placed in their way.

The statement also promised that all contracts with British firms would be fulfilled to the letter in accordance with the terms of the agreements, and that all money obligations of the Russian trading organizations would be similarly fulfilled as they fell due.

TRIAL OF MAYERS BRINGS RELEASE

Ex-British Naval Officer Not Plotter, Says Chief Justice in London

London, May 30.—The case against Lieut.-Commander Colin Mayers, retired British naval officer, floundered to-day when the Lord Chief Justice stated in the Old Bailey Court that the prosecution had withdrawn the more serious charges and that Mayers had pleaded guilty to offences under the Official Secrets Act.

The Chief Justice said he was satisfied that, in retaining submarine plans after his retirement, Mayers had had no purpose prejudicial to the safety or interests of the state, but only wanted to improve submarines for the British navy.

He bound Mayers over to appear for judgment if called upon. This is tantamount to discharge.

BEATTY FINDS CANADA'S MORALE AT HIGH POINT

(Continued from page 1)

"I have often said that Canada could
readily absorb 300,000 people a year,
and while we will not reach this figure
in 1927, we will approach it more
closely than in any previous year."

NEW WESTERN DIRECTOR HERE

Mr. Beatty is accompanied by D. C.
Coleman, vice-president of the com-
pany for Western lines. Blake Wilson,
of Vancouver, the new western direc-
tor of the C.P.R. also came over from
Vancouver to join the president here
to-day.

Local C.P.R. officials of the steam-
ship and railway departments were in
conference to-day with Mr. Beatty and
Mr. Coleman.

EARLY REMOVAL OF J.B.A.A.

Mr. Beatty said that the company is
considering changes in the decorations
and furnishings of the Empress Hotel,
but no major changes in the building
are contemplated at this time.

"The improvement planned for the
old J.B.A.A. club-house site will be in
the nature of improving the surround-
ings and removing what is an eye-sore
to the Victoria waterfront," Mr. Beatty
went on. "It is to be hoped that the
arrangements which the company has
indicated its willingness to carry out
will be completed without delay, other-
wise the matter will have to be
dropped."

The president said that extensions
along the property recently acquired at
the foot of Gweso Street are not in
immediate contemplation.

CROP MAY BE GOOD AFTER ALL

As for the prairie crop condition,
Mr. Beatty added that if reasonably dry
weather is experienced during the next
few days, he felt fairly well satisfied
that the decrease in the acreage would
be more than made up by the in-
creased yield per acre.

"It must not be forgotten that in
many previous years in which the
weather conditions at the beginning
have been obtained and the moisture
conditions being extraordinarily good,
I am very hopeful of a substantial
crop this year," he went on.

The president and his party were
to have returned to the mainland to-
night, but at noon they announced
their plans had been changed to per-
mit them to stay over until Tuesday
afternoon.

St. Mary's, Oak Bay, W.A. will hold a

garden party on Thursday, June 2, on
the grounds at Yale Street Hall, com-
mencing at 3 p.m. Home-cooking stall
for sale of articles sent in. All are in-
vited.

LINDBERGH'S PLANE SAVED FROM CROWDS

(Continued from page 1)

Lindbergh being taken from his plane
by the crowd and carried about the
field shoulder high. The police finally
got the aviator away by lifting him
into an automobile and forcing a lane
through the crowd.

NEW NAME

London, May 30.—This week of the
English year is always known as Derby
Week.

But it has a new name in 1927—
"Lindbergh and Derby Week." The
arrival here of the intrepid flier
brought to a fever point the admi-
ration already bestowed on him and his
achievement and his doings are des-
tined to share with Wednesday's turf
classic, the Derby, the interest of a
vast public which admires sporting
events.

Judging from the reception given
Lindbergh after a 200-mile cross-can-
nel flight from Brussels at 6 o'clock
last night, his four days in London
promise to be even more strenuous
than the seven days that followed his
great flight from New York to Paris.

The Spirit of St. Louis, his aero-
plane, did not escape damage, but the
men after examining it told the visit-
ing flier it would be very easy to make
the slight repairs necessary.

SPECTATORS HURT

Numerous persons were hurt, but
none of them seriously, in the crush
at the Croydon air field. Two men, four
women and five children were treated
at the Croydon hospital, mostly for
minor injuries to the feet.

A building, the aerodrome on which about sixty persons
had climbed to gain a view of the
landing collapsed, but by a streak of
luck no one was hurt. It was a hay-
barn and the spectators fell into lots
of nice new mown hay.

Another incident which gave spec-
tators a thrill was the fall of a sight-
seeing plane from a height of sixty
feet into a nearby field. Two passen-
gers were slightly injured.

U.S. REPLIES TO OTTAWA ON NEW BORDER RULES

(Continued from page 1)

CO-OPERATION PROMISED

Washington, May 30.—The note in
which the United States Government
has replied to Canada's representations
on the new United States regulations
affecting persons in Canada crossing
daily to work in the republic indicates
the intention of the United States au-
thorities to co-operate as fully as
possible in an effort to clear away the
difficulties that have developed.

The note was delivered to Hon. Vin-
cent Massey late Saturday afternoon.
It was signed by Secretary of State
Frank B. Kellogg.

The note was the culmination of
nearly two months of strenuous ef-
forts on the part of the Canadian Leg-
ation to bring pressure to bear on the
United States to modify the border
ruling, dated April 1, which can-
celled the present border crossing pri-
vilege and ordered all Canadian resi-
dents working across the border to
conform to the United States law as
immigrants.

This involved the payment
by native-born Canadians of the head
tax and passport fees, and the sub-
jection of non-native-born Cana-
dians to the quota law unless they had
been eight years in Canada and had
begun their employment across the
border before July 1, 1924.

The note takes the stand that no

ANNOUNCEMENTS

Dr. Eilers, Chiropractor—Hayfever,
an irritation and congestion of the
mucous membrane of the upper respi-
ratory tract and occasionally associated
with bronchitis and asthma, is caused
by an upper spine subluxation, as re-
vealed by the X-ray. This subluxation
impinges nerves supplying the mucous
membrane and renders its tone low,
allowing the pollen of certain plants to
become the exciting factor. Correction
of the subluxation removes the cause.

accurate estimate can be made of the
number of workers who might be com-
pelled to give up their jobs because of
the quota law, and that the proposed
inspection of border communities should
be started to discover how many will
be unable to obtain legal entry within
the six months' grace provided in the
regulations.

Mr. Kellogg goes on to assure the
Canadian Minister of the "sincere de-
sire on the part of his Government to
continue the traditional freedom of
mutual travel between Canada and the
United States just as fully and com-
pletely as the provisions of the law
of his country relating to immigra-
tion will permit."

TO PRESENT VISAS

"Further," the note adds, "every
possible opportunity will be given to
born Canadians to acquire legal status
in the United States by the presenta-
tion of non-quota visas and the single
payment of the head tax in accord-
ance with the provisions of our im-
migration laws which are mandatory."

The note says the principal diffi-
culty lies with the Canadian citizens
who are not native-born and who have
acquired border crossing privileges
since the quota system became effec-
tive.

After reviewing the provisions of
the United States laws regarding nat-
uralization in Canada, the note says
the number of quota aliens involved
is not accurately known, "and compe-
tent authorities express the belief it
will be found to be comparatively
small."

FAIR DEALING DESIRED

The note goes on to point out that
every rule of fair dealing it would be
wrong to take away from aliens al-
ready on the quota list their right to
enter the United States when their
names are on the list. "We endeavor
will be made to reduce the uncertainty
of the situation to the minimum."

The note states that in the bor-
der cities have been instructed to give
all possible assistance to non-native
Canadians in their efforts to obtain
quota visas.

"Those who obviously cannot hope
to receive immigration visas for some
time against which there exist large
demands will be clearly informed of
their status," the note states. "In
other words, a sincere endeavor will
be made to reduce the uncertainty
of the situation to the minimum."

The issuing of quota visas will be-
gin July 1, the beginning of the im-
migration year. "We believe these coun-
tries which have a reasonably large
quota (presumably Britain) will be ac-
commodated as fast as possible. Be-
fore the expiration of the six months
grace allowed in the regulations it
may be found that many who hold
border crossing permits cannot be ac-
commodated this year," says the note,
and adds: "Should this prove to be
the case I shall be glad at once to
request the Secretary of Labor to al-
low further time in which these people
may gain a status in conformity
with the law, and the Secretary has
already assured me that any such re-
quest will receive the most sympa-
thetic consideration possible."

NEGOTIATIONS STILL OPEN
From the last paragraph of Mr.
Kellogg's note it is apparent he con-
sider the whole matter still open for
negotiation by his department and the
Canadian Legation here. He says in
conclusion:

"Meanwhile I shall be glad to con-
fer with you whenever you desire it,
and I am directing the officers of this
department to keep in touch with
your legation and to continue their
studies of the subject with a view to
clearing away, as far as can be done
under existing law, all difficulties and
dissatisfaction in regard to border
crossings. Should these studies indi-
cate there are difficulties inherent
in the law which tend to affect ad-
versely the traditional friendly rela-
tions between Canada and this coun-
try, I shall make it a point to have
the matter brought to the attention
of the Congress when it convenes, and
the Secretary of Labor assures me he
will co-operate in this end."

TO CONTINUE THEIR WORK
Washington, May 30 (Canadian
Press).—Two things stand out in the
United States Secretary of State's mes-
sage to the Hon. Vincent Massey, Cana-
dian Minister, regarding the recent
United States border immigration rul-
ing. The first is that Regulation 86
of the Department of Labor, which caused
the protest by Canada, is by no means
the last word on the border crossing
question. The second is that the State
Department secured the promise of the
Labor Department that Canadian citi-
zens, irrespective of birth, are not to be
deprived of employment they already
have on the United States side of the
border until every concession possible
under the Immigration Act has been
invoked to meet their case.

The conciliatory tone of the note
is in marked contrast to the un-
yielding attitude of the Immigra-
tion Department at the outset of
the negotiations. The note avows
Frank B. Kellogg's desire to con-
tinue the free and friendly border
crossing privileges enjoyed hitherto
by both sides.

The note invites Mr. Massey and his
staff to make free use of the State De-
partment and continue their study of
the whole immigration question with a
view of clearing up any difficulties
which have arisen out of the more
stringent provisions of the United
States Immigration law of 1924. It
promises also the recommendation to
Congress next session for the removal
of any clauses tending to disturb the
friendly relations between Canada and
the United States.

OFFICIALS TO AID
Border officials have been instructed
to give every possible leeway to Cana-
dians, native or non-natives, to assist
the former in taking out visas as na-
tive Canadians and the latter in secur-
ing places on the quota of the land of
their birth.

"Meantime, the note makes clear
that the whole question is still
open for discussion," Mr. Massey
said. "In fact, the negotiations
might be said to be beginning now.
We are free to make our recom-
mendations to the United States
Administration, and from time to
time, as individual problems arise,
we shall certainly make our recom-
mendations wherever necessary."

**ONTARIO LIQUOR
PRICES ARE SET**
Rates Under Control System
to be Lower Than Under
Prohibition

Toronto, May 30.—Prices of liquor
and beer to be sold by the Ontario
Liquor Control Board as announced by
D. B. Hanna, chairman of the Board,
are found to be lower in the main than
Ontario citizens have been paying the
disparities under the Ontario Tem-
perance Act.

Scotch whisky, for instance, that
used to sell at \$5.25 a quart, is now to
sell at \$3.55, a drop of \$1.70.
The price of grain alcohol was \$5.75
per reputed quart and now it is down
to \$4 a reputed quart.

Beer is to be sold at fixed prices by
the stores and also by the breweries
when they deliver direct on order from
the Government stores. Beer is to be
seventeen cents a pint or six for a
dollar. Six quarts may be bought for
\$1.75. A dozen delivered by the brew-
ery are to cost \$1.90, with thirty-five
cents a dozen for bottles returned.

The prices quoted in the new list are
reputed rates and a later price
list may be issued, based on the im-
perial quart. The reputed quart is the
measure used by the manufacturers.
It is stipulated by the control board
that each purchaser ordering by mail
must send his permit with his order.

The first group of liquor stores in
the Province is to be opened June 1.
Others will be opened later.

MANY CASUALTIES IN CHINESE BATTLE

Hankow, May 30.—Accommodations for the wounded from the battle raging on the Honan front are proving inadequate and organization for relief work is urgently needed.
The Bishop of the American Church Mission, who is willing to co-operate with the Nationalist authorities, stated the hospitals of the London mission and the American mission were already caring for as many of the wounded as could be accommodated.

Bobby Jones, golfer, has won 120 cups, but the one he prizes most is his first, only three inches high, won when he was six years old.

Body Recovered

Montreal, May 30.—The body of Charles Durand, held criminally responsible for the death of his first wife following an inquest over the body in St. John's, Que., last week, was recovered from the St. John's Canal Saturday. The man disappeared a few days before the inquest was held. At the inquest it was revealed that Mrs. Charles Durand had died from poisoning. She succumbed on New Year's Eve, 1925, shortly after drinking a glass of wine. Two months ago the body was taken from its grave and reburied some ten miles away from the cemetery, where it was found two weeks later. An inquest was held and a jury returned a verdict holding Durand criminally responsible for his wife's death.

PACIFIC RELATIONS CONFERENCE TO DRAW MANY TO HONOLULU

Canada to Take Part in Great International Gathering in July

New York, May 30.—For the second time in history, citizens from countries bordering on the Pacific will gather in Honolulu between July 15 and 29 to discuss frankly and officially the problems of economic immigration and international relations to-day confronting the peoples of the Pacific.
The Honolulu conference, held under auspices of the Institute of Pacific Relations, will be attended by more than 100 men and women from the United States, Japan, China, the Philippines, Australia, Great Britain, Canada, the Dutch East Indies, New Zealand and the Pacific islands. It is announced from the American office of the institute, 129 E. 52nd Street, New York, that groups from each country include authorities in the topics to be discussed, and it is expected that the gathering will be even more important than its predecessor of July, 1926, which marked the formation of the institute.

"MENTAL DISARMAMENT" THEME
"Mental Disarmament" is the purpose of the meeting, according to Dr. Ray Lyman Wilbur, president of Leland Stanford Jr. University and chairman of the institute.
"With half the population of the world living in countries bordering on the Pacific," President Wilbur said in connection with the announcement of the coming conference, "the need for mental disarmament is apparent. Certainly in the domain of science and education we should be able to come to mutual understanding. Both science and education now contribute so definitely to political and national life that if we can understand each other in science and education, we can work out common points of view which will avoid conflict."

NOTABLES ARE EXPECTED
On the list of Americans going to the Honolulu meeting in July appear many well-known names, drawn from almost every profession and activity in the United States, including President A. Lawrence Lowell of Harvard University, President Mary Woolley of Mount Holyoke College, President Edward H. Rumsford of Yale-in-China, President Arnold Bennett Hall of the University of Oregon, Paul Schrenberg, San Francisco labor leader; Leo Wolman, New York labor leader; Dr. Paul Monroe, director of the International Institute of Columbia University; Chester H. Rowell, formerly editor of The Fresno (Cal.) Republican; and Miss Grace Abbott, chief of the Children's Bureau.

Other important figures are Prof. James T. Shotwell of Columbia University; Robert Dollar, president of the Dollar Steamship Line; Wallace M. Alexander, president of the Honolulu sugar firm of Alexander & Baldwin Limited; Stephen P. Duggan, director of the Institute of International Education; Prof. George H. Blakeslee, student of history and international relations, Clark University; and the Rev. John R. Ryan, editor of The Catholic Charities Review.

George G. Wilson, professor of international law at Harvard University; Jerome D. Greene, member of E. H. Higginson & Company, international bankers; Galen M. Fisher, director of the Institute of Social and Religious Research and authority on Far Eastern questions; Col. Manion Davis of the Radio Corporation of America; Mrs. Carrie Chapman Catt, chairman of the National Committee on the Cause and Cure of War; Ivy Lee, publicist.

PROFESSORS AND BANKERS
W. F. Morrish of the National Bankers' Association; Archbishop Edward J. Hanna, leader of the Catholic Church in California; Miss Belle Sherwin, president of the National League of Women Voters; William H. Kilpatrick, professor of the philosophy of education.

JONAH WOULD FIT IN THERE NICELY—This unusual picture, from Port Arthur, Tex., seems to bear out scientists' recent claims that Jonah would have fit very comfortably into the belly of a whale and had some room to elbow around in besides. This catch, made by Captain Plummer of the whaling fleet, who is shown at the monster's mouth, is eighty-five feet long and weighs plenty.

tion, Teachers' College, Columbia University, and Quincy Wright, professor of political science at the University of Chicago.

Among others who will attend are Dr. Henry S. Pritchett, president of the Carnegie Foundation; Carl L. Alsberg, food and population expert from Stanford University; Fletcher S. Brookman, far East secretary for the Y.M.C.A.; E. C. Carter, secretary of the institute; Representative Frederick M. Davenport of New York; A. C. Elkinton, president of the Philadelphia Quarts Company of California; Daniel J. Fleming, professor of missions in Union Theological Seminary; Mrs. William G. Hibbard, women's club leader of Chicago; Mrs. Alfred McLaughlin of San Francisco; Alfred Holman, Pacific Coast correspondent of The New York Times; Jeremiah W. Jenks, president of the Alexander Hamilton Institute, New York; Stanley Hornbeck, recently a member of the Tariff Commission in Peking, and Robert Newton Lynch, vice-president of the San Francisco Chamber of Commerce.

IRELAND HAS LIVELY ELECTION CAMPAIGN

Free State Voters to Choose New Assembly June 8

Dublin, May 30.—"We cut your tails; we drew your fangs, you curs," roared Kevin O'Higgins, Minister of Justice of the Irish Free State, to hecklers at a political meeting in County Monaghan at the week-end. He was making one of his fine speeches in the hotly contested campaign which will terminate in general election nominations next Wednesday.

Mr. O'Higgins' impassioned retort was made to quell lively opponents of the Free State during one of the wildest political gatherings ever held in the border county of Monaghan.
"Murder the hecklers at Mr. O'Higgins, when reference was made to the seventy-seven executions carried out during the existence of the Free State," he shouted back, "we will execute seventy-seven more."

The general election will be held June 8 and the new Dail Eireann will meet June 23. Seven or eight contesting factions are bidding for votes. The re-election of President Cosgrave is regarded by political observers as certain.

MEETINGS AT NIGHT
One of the features of the campaign has been the holding of open air meetings at night. Mr. Cosgrave has been touring his whole constituency. Mr. O'Higgins, frequently addressing meetings after midnight. Eamon de Valera also has been active day and night, appealing to voters to support the candidates who oppose the treaty which established the Free State.

A remanent has been provided by the Government through the issuance of a series of documents alleging the old Republican army still is in existence as an organization and claims to exercise control over both wings of the Republican Party.

U.S. MEDAL FOR CAPT. LINDBERGH

Washington, May 30.—Award of the Distinguished Flying Cross to Capt. Charles A. Lindbergh, New York-Paris flier, was approved Saturday by President Coolidge.

The Distinguished Flying Cross was created by the last Congress and only eight have been awarded heretofore, these going to the aviators who recently completed the Pan-American "good-will" flight.

114 Deaths in U.S. River Flood

New Orleans, May 30.—One hundred and fourteen persons have lost their lives thus far in the Mississippi flood, the United States Red Cross has reported. The report, made by Henry M. Baker, director of disaster relief, these going to the aviators who recently completed the Pan-American "good-will" flight.

The largest number of flood deaths occurred in Arkansas, where fifty-nine died. Mississippi came next with forty-two; Louisiana, nine; Illinois, two; Tennessee, two. None was reported in Kentucky and Missouri. The report said some of the dead had not been identified.

NAVAL CONFERENCE
Washington, May 30.—United States officials declined to comment on the announcement from Melbourne that Earl Jellicoe and Hon. Sir James Parr would represent Australia at the forthcoming naval conference at Geneva.

The impression is gained from informal comments here that the United States Government is willing each country decide without interference the question of the personnel of its delegation. If the British delegation includes two Australian delegates, they will be satisfactory to the United States.

In Russian factory schools, out of 8,502 pupils given a medical examination, 5,122, or 60 per cent, were found to be sick. There were 1,347 with tuberculosis.

VIOLENT DEATHS IN EASTERN CANADA

Ottawa, May 30.—Of the numerous fatal accidents reported in Eastern Canada over the week-end, six occurred in Montreal.

Mrs. Wolfe Pressman, forty-eight, mother of seven children, was instantly killed when struck by a street car. Alice Girard, twenty, died in a hospital after being hit by an automobile. Roch Beauvais, sixty-one, a plough manufacturer, accidentally drove a splitter of wood through his eye into his skull while at work.

O. Lamothe, thirty, was fatally injured while at work loading a ship. E. St. Germain, twenty-five, met instant death when a falling stone weighing some 400 pounds smashed a scaffold and precipitated him and five other workers to the ground forty-five feet below. The other workmen were more or less seriously injured.

The body of John Cain, ship's fireman, was found in the harbor. At Hamilton, Ontario, Jarvis Maus was killed and four persons were injured when their automobile swerved off the highway to avoid another car and turned turtle in a ditch.

Thomas Stone, twenty-seven, of Grenville, Ont., was drowned in the Metagama River at Timmins, Ont., when he fell out of a rowboat. Five-year-old Fred Osborne was instantly killed at Toronto when he was hit by an automobile. Patrick Gorman, fifty-seven, was killed when an automobile he was driving turned turtle in a ditch near Renfrew, Ont.

CANADA'S BREAK WITH RUSSIA CALLS FORTH COMMENTS

London, May 30.—Discussing Britain's break with Soviet Russia in his paper, The London Observer, J. L. Garvin says:
"Although it does not involve war it commits the nation and places every citizen's duty above party. While this is a statement of principle, it is not a war continues we are all bound to sustain the Ministry against the consequences."

"From this standpoint," Mr. Garvin continues, "Canada has set a magnificent example in supporting immediately the action taken by the Mother Country, Canada, locally, had no grievances comparable to ours, but on the one hand Mackenzie King sees the common Imperial interest now at stake, and on the other he brings Canada as well as Britain into line with the unchanged position of America. The decision of Ottawa is by far the most satisfactory aspect of this whole imbroglio."

ALEXANDER GRIEG DIED IN VANCOUVER

Vancouver, May 30.—Alexander Grieg, sixty-seven, hotel owner at Greenwood, B.C., and resident of this Province for forty years, died Sunday in Vancouver. He is survived by a widow. Interment will be made in Vancouver.

YE MODERN STUDY—Nothing if not modern, these gargoyles adorning a new addition to the Graduate College building at Princeton University! They recognize the fact that students aren't what they used to be. Upper, "Night Study"; lower, "The Radio Bug."

MOSAIC CALENDAR IS MADE FOR REFORMERS TO-DAY

Israelites' Lore Source For Modern Students Connecting Imperfect System

Washington, May 30.—Moses, trained in the secrets of the Egyptian Pharaohs, was the greatest calendar reformer of history. The long-lost calendar plan which he gave to the Children of Israel offers help to modern astronomers, mathematicians and churchmen who are trying to straighten out our imperfect system of reckoning time.

These are the conclusions of Dr. Charles F. Marvin, chief of the United States Weather Bureau, and Moses B. Cotsworth, of British Columbia, well-known advocates of calendar reform. When Moses set out with the Israelites on their forty years' journey in the wilderness he was well versed in calendar-making long known to the Egyptian priest-astronomers and to members of Pharaoh's household. There is evidence in the Bible, according to Dr. Marvin and Mr. Cotsworth, that Moses used this knowledge to make a calendar based on the sun so exact that workdays and Sabbaths came round on the same fixed dates each year, so long as the Mosaic calendar lasted.

HAD TWO SABBATHS
Each month had thirty days, and at the end of the year the five days needed to make 365 were added. To make the year always begin on the Sabbath and to keep anniversaries from slipping along one day later in the week each year, as they do in our calendar, Moses established two Sabbaths together at Pentecost. To keep the calendar adjusted to the sun, a leapweek was inserted at the end of each twenty-eight years.

"Leaders of humanity have struggled in vain during many centuries to reproduce such a perpetual calendar," the calendar experts point out. "Although better than any calendar employed by any subsequent nation, it ceased to be used or was misunderstood by later priests and has been lost during about 2,500 years. But the significant fact remains that through traditional Jewish usage the calendar continues to observe two consecutive days at the Feast of Pentecost."

CALENDAR KEPT SECRET
In ancient civilization the calendar system was kept secret from the people, who depended on the priests to tell them when to plant important crops and when to harvest; thus the close connection between the priests and the temple and its religious ceremonies was increased. When the Babylonians slew the priests and burned their archives in the destruction of Jerusalem in 587 B.C., the Mosaic calendar was lost, and the captives turned to the Babylonian system of reckoning time, based on the moon.

"Moses is the only calendar reformer known in history who succeeded in maintaining equal months, while fixing the dates for all seventh-day Sabbaths and festivals to recur on their same respective dates in every year," Dr. Marvin and Mr. Cotsworth claim.

NO PREFERENCE EXPRESSED
The Scriptures commanded the insertion of the extra day at Pentecost as an eighth day extension of the preceding week. Therefore, neither Jews, Christians nor Mohammedans now seem to have reasonable grounds to oppose any action by the calendar committee appointed by the League of Nations towards recommending that the last day-in-December be named 'Year-day' and be inserted as an international Sabbath ending the fifty-second week in every year, instead of in the last week of June in Leap years."

The proposed calendar system which these two calendar reformers advocate would have thirteen months of twenty-eight days each. The League of Nations committee which has been considering plans for improving the calendar system did not, in its recent report, express a definite preference for this system or for the alternate proposal of using twelve months each thirty or thirty-one days long. Both plans have their advantages, which the committee pointed out.

ELDERLY TORONTO MAN MURDERED

Toronto, May 30.—Missing since Thursday last, when he left home to go to the Woodbine racetrack, the body of William D. Williams, aged sixty-six, formerly owner of a string of race horses, was found at the mouth of the Humber River here yesterday.

In autopsy revealed a blood clot in the stomach, which led surgeons to believe he had received a severe blow there half hour before drowning. Mr. Williams had between \$20 and \$25 in his pocket when he left his home and he wore an overcoat and glasses and carried a cane. These have not been found. Mr. Williams is believed to have won a considerable sum of money at the races, and relatives are of the opinion that some one, seeing him there with it, enticed him into an automobile, drove to the outskirts of the city, beat and robbed him and threw him into the river.

FOUR U.S. AVIATORS BURNED TO DEATH

Augusta, Ga., May 30.—Four aviators of the United States army squadron en route from San Antonio to Langley Field, were burned to death yesterday when the left motor of their machine went dead 500 feet above the flying field and the plane fell in flames.

Those who lost their lives were: Second Lieut. Dan F. Voorhees, Air Corps, pilot of the plane; Staff-Sergeant Clifford Glenn, 50th Service Squadron; Staff-Sergeant James Reed, 20th Bombardment Squadron, and Corporal Melvin Andrews, 50th Service Squadron.

The plane, one of the fourteen Martin bombers that had participated in the manoeuvres at San Antonio, had ascended 500 feet to wait for the other planes to take off when the motor went dead, throwing the machine into a nose dive. The plane was in flames when it struck the ground and comrades were unable to go to the rescue of the occupants. When they finally succeeded in extricating the bodies they were almost incinerated.

Several thousand people witnessed the accident.

SIR ESME HOWARD BACK IN WASHINGTON

Washington, May 30.—Sir Esme Howard, British Ambassador to the United States, who suffered a heart attack in Vancouver, B.C., while on a speaking tour of the Pacific coast, returned here Sunday, and will rest up preparatory to moving to his summer home in New England on June 11. The Ambassador, who delivered fourteen speeches in about three weeks throughout the South and West, was still under a physician's care to-day.

SPAIN AND BRAZIL URGED TO SHARE IN LEAGUE'S ACTIVITIES

Geneva, May 30.—A resolution urging Spain and Brazil to reconsider their withdrawal from the League of Nations and reoccupy the seats to which they are entitled was adopted unanimously at the concluding plenary meeting of the League of Nations Union here yesterday.

Sofia was chosen as the seat for the October, 1927, session, and The Hague for the meeting in June, 1928.

Ends Paring Corns or Calluses

"Gets-It" eases
all pain in 3 seconds

NO matter where it is, how bad it hurts, how long you've had it, or what kind of corn it is, "Gets-It" will ease pain in 3 seconds. All pain is relieved at a touch. Then the corn shrinks up and goes away altogether. You walk, dance, wear tight shoes all you want. For your own sake try "Gets-It." At leading drug stores everywhere. Costs only a few cents for several months' supply.

THE CANADIAN PACIFIC RAILWAY

THE PRESENCE IN VICTORIA TODAY
of Mr. E. W. Beatty, K.C., accompanied by other officers of the great transportation company which he directs, reminds us of the very important part which the Canadian Pacific Railway played in the Confederation of the Canadian provinces. Very few of us realize the enormous amount of money which it has spent during the last sixty years, the varied service it has rendered, and how it has enhanced Canada's prestige in many parts of the world. Mr. Beatty's own words, perhaps, uttered during the course of his observations to the company's shareholders at the recent annual meeting, may furnish a new conception of many things. He then said in part:

I do not know whether all of our shareholders comprehend the magnitude of the company's undertaking, the diversity of its activities and the widespread character of its operations in transportation, colonization and development. The railway was itself a part of the scheme of Confederation, the sixtieth anniversary of which is being celebrated in Canada this year, and from its inception has been charged with the great and serious responsibility of providing a facile means of communication—a constant and thoroughly efficient service—to enable the people of this wide Dominion to enjoy the close communication that is essential to the integrity of Confederation and the continued development of the nation.

Not only that! In order to live and grow, the Canadian Pacific of the eighties was charged with the task of attracting people, of seeing them comfortably settled, of encouraging industry, of making arable through irrigation extensive areas of land which otherwise would have remained unavailable for settlement, and of developing by divers means the traffic that is the life-blood of the country and of the railway system. It was necessary that Canada be advertised, that the people of the world should know of her wealth of land, forests, mines, waterpower and other resources, and that these by them and their capital be woven into the pattern of Canadian industrial history.

It should be remembered that it was the building of the Canadian Pacific Railway that made possible the development of the Northwest, and it was the potentialities of the Northwest which brought Confederation into the realm of practical politics. Of especial interest is the record of the works of the company to British Columbia, since it was the promise that this Province would be connected with the rest of Canada as far as the Atlantic Coast by a line of railway which induced British Columbia to join Confederation. And until the system was a trans-continental system in fact, the union of the provinces could be nothing more than a political and economic union—with obvious transportation handicaps. The physical union was not complete until the C.P.R. had stretched its ribbon of steel from sea to sea.

NORTH OKANAGAN

THE APPROACHING BYELECTION IN
North Okanagan is causing an unusual flutter in political circles. Polling will take place on June 9 and it is expected that the big guns of both parties will be present. The Liberal Party will be without the assistance of Premier Oliver, but several members of the Cabinet will take part, while the Conservatives will be led into action by Dr. Tolmie, who, although not a member of the Legislature, is, of course, their leader.

This contest was occasioned through the death of Mr. A. O. Cochrane which took place just prior to the last session of the Legislature. In 1910 Dr. K. C. MacDonald was elected to represent North Okanagan; but on his elevation to the post of Provincial Secretary in 1925 he failed to obtain the necessary endorsement of the electorate. He again is carrying the banner of Liberalism in this contest, however, and his opponent is Mr. W. F. Kennedy.

There is every reason why the Government should look forward to recapturing this seat. Its candidate will be able to refer the electors of the riding to important legislation of special value to the constituency, and which, in a wider sense, is convincingly reflected in the thriving conditions in both rural and urban areas of British Columbia. He will be in a position to point to ten years of solid progress, while his opponent is the supporter of a party whose only policy appears to be exploded scandal charges.

BRITAIN WELCOMES LINDBERGH

IT WAS ONLY TO BE EXPECTED THAT
London would turn out to give Captain Charles Lindbergh a rousing welcome on his arrival at Croydon from Brussels yesterday. But the people of the metropolis and surrounding suburbs staged an ovation which is said to be the greatest and most enthusiastic ever given in England to a private citizen. So eager were the 100,000 people who had gathered at the great aerodrome to impress the gallant aviator and catch a closer glimpse of "The Spirit of St. Louis" that they bowled over the police like nine-pins, smothered the ambassadorial party, wrecked dozens of silk hats and other headgear, and very nearly the machine itself. All the elaborate preparations which had been made for the official reception by Ambassador Houghton and the Air Ministry were altered in a twinkling by the irrepressible enthusiasm, not to mention the motive power which it promptly generated, of the waiting spectators. Cap-

tain Lindbergh himself, now surely almost trained to the ways of admiring crowds, was compelled to appeal to the thousands to spare his machine.

So began the young aviator's first day of his short visit to Britain. It obviously was a real British welcome and one which was genuinely meant. There is nothing surprising about it, of course, since the average Briton dearly loves a sportsman—and Lindbergh has captured the hearts of all by his miraculous feat and modesty under circumstances that might have turned the head of anybody.

CANADA NEED NOT WORRY

ACCORDING TO THE CANADIAN
Labor Department there are something like five thousand avowed Communists in this country. Their activities are directed towards enlisting existing labor organizations in a militant struggle against capitalism and to replace "the present reactionary leadership by revolutionary leadership." Their leaders are arranging to participate in the elections and political life of the country and hope to "mobilize the workers for the final struggle against the capitalist state." After that they expect to "establish a working class dictatorship and a workers' republic."

These facts have just been made public by the Department at Ottawa in view of the course which this country and Great Britain have taken in respect of commercial relations with Soviet Russia. But they will alarm very few people in Canada. This Dominion offers about the most unfruitful field for Communist seed that could be imagined. The reasons are obvious. Our school system is of a high order; our people are contented and prosperous. More citizens own their own homes in Canada than the people of any other country. By the end of this year the number of automobiles registered will be very nearly a million. That is to say, there will be one automobile for every ten persons.

The per capita wealth of Canada at present stands at \$2,525. Is it to be supposed that a people worth that much are going to exchange the method of doing public business which has produced such a satisfactory state of affairs for one which produces economic chaos, proscribes every form of personal liberty, and transfers full control of practically everything to a few despots. They have too much of a stake of their own in their own country to have any patience with Communist agitators.

WHAT OTHER PAPERS SAY

NO PERMIT RUSH
From The Ottawa Citizen

There was no wild stampede for Ontario liquor permits when they were placed on sale in Ottawa yesterday. There was not a prospective purchaser in sight when the sale began and only two had secured their license to drink during the first half hour.

A report says that the absence of any "rush" was "contrary to expectation." A little study of the situation would have dispelled any such expectation. There was no rush for several reasons. In the first place the liquor is not in sight yet, and the best that is promised is that it will be available by June 1. People see no reason to hurry over securing a permit under these circumstances.

But there was another and more powerful reason why there was no rush for permits. Nowadays people do not go out of their way to let the world know they drink. There are hundreds who do drink and hotly defend their right to do so, but no longer is drinking what it was. In the old days, a business man drove many a bargain over drinks. To-day he divorces drinking from business, and strictly, too. Somehow, it is no longer possible to maintain one's standing in the eyes of one's fellows and at the same time indulge in intoxicants as of old. The thing is simply not done. There has come a vast change, and it is for the better. It is this change in outlook that explains in part the lack of eagerness on the part of the public to secure permits on the well-advertised opening day.

There were other reasons of course, such as Ottawa's nearness to another government sale supply, but it is highly probable that the one suggested was the chief.

Queer Quirks of Nature

THE KANGAROO RAT NEVER TAKES A DRINK

By ARTHUR N. PACK

Dipodomys Deserti is his scientific name, but he is known throughout that part which he calls home as the "kangaroo rat."

This is a misnomer, as he is no more of a rat than he is a kangaroo. He is a rodent, however, but with funny long hind legs, very long tail and a kangaroo-like way of jumping around.

This tiny animal, which can cuddle in the hollow of your hand, does not, like the kangaroo, have a pouch in which it can tuck away its babies safe and snug, but like the chipmunk it does have cheek pouches which are useful in carrying food and earth.

They are such attractive little creatures that the name of rat seems unkind. They are brown shading to smoky gray, with breast and throat of snowy white. Their big, soft eyes and general daintiness make them attractive pets. They differ from most rodents in that they do not hibernate. They are provident little things, however, and in the Spring and the Fall lay aside supplies of seeds and leaves against stormy days.

The kangaroo rat makes their home in the loose sands amid the creosote bushes of the desert. They dig their burrows with a perfect maze of passages, tunnels and winding corridors. These always extend amid the roots of the bushes and have as many entrances and emergency exits as an up-to-date movie theatre. It is the entrance lately plugged with sand that always leads to the grass-lined nest chamber.

The only reflection that can be cast upon this fellow is that in his own home he will creep just a little. There are only two youngsters in each family at a time and often there is a sparring match to live things up a bit. This performance consists in leaping and then striking downward with their powerful hind legs.

The kangaroo rat is as dry as the desert itself, never taking a drink of anything, even water, depending upon the moisture in his food for such needs.

THOUGHTS

The laborer is worthy of his reward.—First Timothy 18.
Work is God's ordinance as truly as prayer.—George D. Boardman.

"It will be fifty years before the human brain catches up with modern progress," declares Dr. Charles Mayo. And the worst of it is by the time we know where we are at we shall be somewhere else.—Chicago Daily News.

Do You Mean What You Say?

"FREE LANCE"

5-24
FREE LANCE

A free lance writer is one who is not affiliated with any publication, but sells his works to various buyers. The term is derived from the "free lance" of the middle ages—knights, or roving soldiers whose services were purchasable by any state or commander.

Canadian Questions and Answers

CANADA'S ARMY

Q—What is the strength of the Canadian army?

A—Canada's permanent force numbers 3,600 of all ranks in sixteen units. The per capita expenditure for national defence, of the army, navy and air force, in 1926-27 was \$1.46. The Royal Military College has an enrolment of 167 cadets while there are 115,742 in cadet corps throughout the country.

CONFEDERATION AND AFTER

Sixty Years of Progress

No. 9

CARTIER'S LOYALTY

The loyalty of Sir George Etienne Cartier was the subject of a very interesting article which appeared in a Montreal newspaper, over half a century ago, under the name of Mr. Arthur Danereau.

This article, on one of the Fathers of Confederation, will be read with special interest now, when preparations are being made to celebrate the jubilee of the Canadian Confederation.

"As all know, the whole life of Cartier was an exhortation to loyalty towards the British Crown and to fraternity between races. His first political speech, made on September 24,

JOTS FROM GEOGRAPHY

THE ISLAND OF DEATH, off the coast of Corfu, in the Mediterranean, is gradually sinking into the sea for want of funds to rebuild its sea wall. The island is well known to tourists, and the towering trees, with their background of opulent sea call to mind Arnold Bennett's painting "Isle of the Dead."

Kirk's Wellington

The Most Economical Tea You Can Buy

ADEQUATE LIFE INSURANCE PREVENTS WORRY

KENNETH FERGUSON

Imperial Life Assurance Company 205 Belmont Bldg.

1844, sounds the note which rang the same to the end of his career:

"The events of 1837 have, he said, been badly interpreted. The aim of the people was neither to render powerless the oppressive minority which sought to use the government to its own ends than to bring about a separation of the province from the Mother Country. . . . Responsibility for the unfortunate events of 1837 has rested on the head of those who directed public opinion at this time. M. Viger was one of those and with the influence he had, he should have better advised his fellow-countrymen."

It was with the same spirit of loyalty that, nineteen years later, when his government was beaten on the Marine Bill that Cartier, on August 3, 1853, said to the leaders of the rebellion: "By the introduction of our Militia Bill we showed what price we attach to our union with Great Britain. We sought to show England that we cherished the British union."

Cartier passed his whole life in identifying the province of Quebec with British sentiment, in the midst of which his development was to take place. With his indomitable energy, he fought against the tendency of his race to complain against all that was English and to remain aloof. Almost a century of imperial pettiness, of bureaucratic persecutions, had moulded the spirit of French Canadians into a form of resistance to English influence.

Lafontaine began the work of regeneration; Cartier had to finish it. He had to convince his fellow-countrymen that they were citizens like others, acceptable like others to the Empire. When Confederation was suddenly announced, defiance had not yet disappeared from among the people.

In the province of Quebec there was a serious moment of hesitation. It might even be said that the best friends of Cartier, seized with fear, broke their allegiance and abandoned him. An indecisive public opinion was steeled however, some time after, by an article which appeared in The Mirror, of which Cartier was the immediate inspiration; if not the author, an article which simply said to his compatriots:

"The province of Quebec has no right to obstruct the march of political events and to block a great idea. If she does it, it is over with her. She will fall again into the struggles of 1837 with this difference: she will no longer have to contend with English emissaries, but with her own countrymen of other races who will never forgive her for her obstinacy."

The glory of our nationality does not lie in isolation. It lies in struggle and combat—struggle formerly with arms against despots and tyrants, generous struggle in defence of the flag of our mother country—to-day peaceful struggles that she may take her place in the world of affairs by the side of her rivals and dispute with them, if possible, the better position. It is here to struggle—this nationality which has had to overcome so many obstacles, support so many miseries and fight so many battles against monopoly and tyranny that it might carve out for itself an honorable path by the side of foreign races.

"Confederation will extend our horizon, but, at the same time, it will bring to our private life, to our family life, elements of happiness and joy which have been denied to it up to now. It will make us free and masters in our own house in the administration of our own special patrimony."

Except in cases where people are working during the day, or of course, when serious or sudden illness demands his attention, should we not try to give the doctor his chance to dance, or dine, or make merry as he chooses in the evening hours when all men should have rest and recreation?

A doctor's work is hard. The responsibility of human life is a heavy one. It requires not only from him ten years of preparation before he begins to practice, but constant study and research afterwards to keep up with the advance of science and medicine.

This, in connection with the treatment of his patients, his loss of sleep and irregularity of meals, will in time undermine his health. As far as possible he should have his evenings. Illness is usually more acute at night. Our nerves go back on us. Things that can be borne well through the day look unusually black and unbearable at night. We want the doctor. It's a comfort to hear him say we'll be all right.

It is not kind to censure a doctor who takes a few hours of recreation "when his patients might be dying." A young doctor was called in to attend a girl with a fatal illness. He was in love with the girl and he watched with agony the failure of his attempts to cure her. She was at the point of death, when he remembered reading of a similar case in the medical journals—a case in a Vienna hospital that had been cured by resorting to a rather extreme administration of a certain drug. Two other doctors had been called in previously in consultation. They approved of his treatment, said that nothing more could be done and departed! He knew there was no hope of their co-operation now in what he was going to attempt. But it was the only chance left.

The drug was to be administered in three doses two hours apart. He gave the first dose, walked the floor and found his nerve going. He gave a few directions to the nurse, said he would be back in an hour, and went out for a walk.

He went into a hotel for some cigarettes, met his cousin, and danced two

TWENTY-FIVE YEARS AGO TO-DAY

The Victoria Daily Times, May 30, 1902

A new service will shortly be opened in transportation between Victoria and Nanaimo. The Sidney and Nanaimo Transportation Company has recently been incorporated and will control the service between Sidney and Nanaimo in connection with the Victoria Terminal railway system.

Ear Troubles Have Various Causes

By DR. MORRIS FISHER

Why people should criticize the doctor, who seeks recreation by dancing or in any other way, is difficult to understand.

Such symptoms may be associated with a vast number of causes. These are not always in the ear itself, though infections of the ear, congestion or any disturbance at the point where endings of the nerves of hearing are located, can result in distress and in most annoying whistling and ringing.

PRESSURE ON BLOOD VESSEL.

A large blood vessel which carries blood to the head passes through the bones of the skull near to the ear. Sometimes a person lies down or bends his head in such a manner as to interfere with easy circulation in this blood vessel. The result is that he will hear the throbbing of the blood under such circumstances.

If he will lie on the opposite side, arrange that there is no pressure upon the vessel, or avoid the wearing of tight neckbands, he frequently may rid himself of this symptom.

In most instances, the persistence of ringing, throbbing, or whistling noises should be an indication for the consultation of expert advice.

The examination for determining whether the structures of the ear in general, or within the nerves of hearing, is a difficult one.

If the trouble is in the nerve, treatment of the nose or throat, or surgical operation, will help little, if at all.

TREATMENT. If the difficulty lies in congestion or infection of the canal leading to the ear-drum or of the tissues beyond the ear-drum, treatment of the nose, throat and ear usually is of benefit and frequently produces a cure.

Sometimes the unusual irritation felt by the patient in connection with this symptom is a part of a general nervous excitement which must be controlled by the administration of remedies and by the establishment of a proper routine of life.

Camosun Chapter, I.O.D.E.—The regular monthly meeting of Camosun Chapter will be held at the headquarters on Wednesday, June 1, at 8 p.m. in the hall of the Victoria Hotel.

Alexandra Rose Day.—Mrs. A. Hopkins, who is convening Alexandra Rose Day for the Municipal I.O.D.E. this year, will hold a meeting of regents of all primary chapters at headquarters on Thursday at 2 o'clock. All regents are urged to attend.

Teachers' Duty.—In every instance the part taken by the schools in the Diamond Jubilee Celebration on Dominion Day should stand out as a major feature. This may call for some self-sacrifice on the part of teachers whose schools are a long way from their own homes, but I would strongly urge all teachers to make the sacrifice and to join heartily in their respective community celebrations; in fact, play a very prominent and very distinctive part in it. If cases arise where circumstances will not permit of the teachers' remaining over for the celebration on July 1 in his or her own school district, an effort should be made by such teachers to enlist the co-operation of a competent person or of a small local committee approved by the school board to carry through in a creditable manner the school's part of the community celebration programme.

In conclusion, I would emphasize the real purpose of all school and community celebrations as pointed out by the chairman of the executive of the National Celebration Committee at Ottawa:

"In every programme there should be a clear, strong, dominant note of patriotism that will inspire confidence in, love for, and devotion to our country. An impression should be left on the minds and in the hearts of all who call Canada 'Home' that will tend to quicken the national soul and encourage the development of a robust, self-reliant, national spirit, without which no country can ever attain real greatness."

Confederation and After.—Sixty Years of Progress. No. 9. CARTIER'S LOYALTY. The loyalty of Sir George Etienne Cartier was the subject of a very interesting article which appeared in a Montreal newspaper, over half a century ago, under the name of Mr. Arthur Danereau.

This article, on one of the Fathers of Confederation, will be read with special interest now, when preparations are being made to celebrate the jubilee of the Canadian Confederation.

"As all know, the whole life of Cartier was an exhortation to loyalty towards the British Crown and to fraternity between races. His first political speech, made on September 24,

ESTATE RULINGS ASKED

Vancouver, May 30.—Official administrators of both the North and South Okanagan electoral districts and Mrs. A. C. Medley, niece, are contesting the

right to administer the \$400,000 estate of the late Arthur B. Knox, well-known resident of the Okanagan. W. C. Kelley, official administrator for South Okanagan, has already been appointed on his own application, but on

June 6 Mr. Justice W. A. Macdonald will hear the North Okanagan administrator and Mrs. Medley in applications to vary this order. Mrs. Medley is backed by other relatives in Scotland.

AIRMEN PLANNING
NUNGESSER SEARCH

New York, May 30.—An aeroplane expedition to search Newfoundland for Captain Nungesser and Major Gail, missing French airmen, will leave here either Wednesday or Thursday, Major F. S. Cotton, former Newfoundland air mail pilot, announced to-day. Major Cotton will pilot the plane.

Frank Tischenor, trustee of the fund for the expedition, said the entire amount necessary had been subscribed and that oil companies had co-operated in distributing gasoline at various points on the route.

SEARCH FAILED

Curling, N.S., May 30.—The steamer Sagona returned here yesterday after an unsuccessful search for Captain Nungesser and Major Gail, missing French aviators, lost during their attempted transatlantic flight from Paris to New York. A steamer searched the Strait of Belle Isle and along the Labrador coast as far as Battle Harbor without finding any trace of the missing airmen.

London, May 30.—The Westminster Gazette prints a report from Tralee, County Kerry, that what might have been Nungesser's aeroplane, sank in Castle Shannon Bay, off the Kerry coast on May 10.

According to Michael Casey of Castle Shannon, a strong smell of petrol was wafted shorewards over the surf at 10 o'clock that morning. Later he noticed an object floating a mile and a half offshore, and as it sank what appeared like two aeroplane propellers became visible.

LINDBERGH WAS
GREETED BY GREAT
THROW AT CROYDON

100,000 People at Field When
Airman Arrived For Visit
in Britain

Left Brussels at Hour Set,
Surprising the Escorting
Planes

Croydon, May 30.—This placid old town yesterday had one of the greatest thrills in all its centuries of existence. Capt. Charles A. Lindbergh was responsible for it. The crowd which greeted the airman at the Croydon aerodrome was one of the largest, wildest, most enthusiastic gatherings of men, women, boys and girls, and even infants, ever assembled in this country to welcome a private citizen of any nation.

A crowd estimated by the police at more than 100,000, breaking down the barriers, swarmed over the field just before the aviator came to earth, and almost robbed him of a landing place. Lindbergh reached here at 6 o'clock last evening. He circled the aerodrome and volplaned down, but owing to the masses of people invading the field rose again and made another circle while the police endeavored to press the spectators back. Finally sufficient space was cleared, and the Spirit of St. Louis settled to the ground.

As he looked into the faces of the seething masses, Lindbergh called out, "For God's sake look out for my machine."

PLANS BROKEN UP

Lindbergh's machine came to a stop several hundred yards from where stood Sir Samuel Hoare, British Aviation Minister, and Lady Hoare, Alan-son B. Houghton, United States Ambassador, and other officials who were there to receive him.

In less than a minute the cheers of people were so great that Ambassador, the Air Minister, Lady Hoare and the others were swept in different directions. Silk hats were crushed, clothes were torn, canes and umbrellas were broken, women were knocked down, men fought, pulled and dragged at each other, while excited bobbies darted here and there, blowing whistles and calling for reinforcements.

But it was too late. The crowd had taken charge and cast aside all thought of the reception formalities which for days had been so minutely thought out. Lindbergh himself, after it was all over, declared his Croydon experience was "worse—or better"—than his experience at Le Bourget. He seemed to have in mind that so far as enthusiasm and crowds were concerned, this had been greatest demonstration yet.

Frantic efforts were made by the crowd to carry the aviator from the Spirit of St. Louis, but the police prevented this, and finally succeeded in getting Lindbergh out of the mass by lifting him into an automobile.

WELCOME APPRECIATED

Brussels, May 30.—Capt. Charles A. Lindbergh broke contact with continental Europe about 3.30 yesterday afternoon, his near so ill of impressions that he admitted he was unable to collect them for the moment.

"I can only repeat, before taking off for Croydon," he said, "how deeply I appreciate the warm welcome I received in France and Belgium."

The transatlantic flier got into the air so promptly at the hour fixed that he surprised not only the spectators, but the commercial planes ready to follow him and the Belgian military planes detailed to escort him. Some persons who had taken passage on the regular air lines were left on earth because the pilots, who were ordered to keep close after Lindbergh, were obliged to go up before all their passengers were ready.

HONORED THE DEAD

Before leaving Belgium the aviator paid a tribute to the United States soldiers who sleep in the cemetery at Werenghen, near Ghent. Cutting off his motor as he flew over the field, he slipped silently down to only a few yards above the rows of white crosses and let drop a wreath of flowers.

His last day here was to him one of the most interesting. He started it by keeping a secret engagement with King Albert and Queen Elizabeth at the Ever aerodrome, where they then his aeroplane. The Belgian Crown Prince, who became a sort of chum of Captain Lindbergh's at the American Club dinner Saturday evening, received a visit from the aviator soon afterward.

GIVEN A MEDAL

The heroic burgomaster of Brussels, Adolphe Max, whose name acquired world fame during the Great War, lifted Capt. Lindbergh in the famous City Hall while 12,000 people massed in front of the building acclaimed him.

As he clasped the burgomaster's hand the latter slipped a little leather case into the hand of the aviator. It contained a gold medal inscribed in English:

"The City of Brussels, May 29, 1927." The reverse side bore a heroic winged figure.

HONORED IN FRANCE

Paris, May 30.—Before leaving Paris, Captain Charles Lindbergh received another rare honor—one that but fifty men have had since 1821.

The Geographical Society of France, founded in that year, held a general assembly and voted to grant its "Great Medal of Gold" to the aviator for his New York-to-Paris flight.

Among those who received this honor in the past were Sir John Franklin, Arctic explorer; David Livingstone and Rene Caille, French explorer of a century ago.

MONTREAL TO HAVE
CUSTOMS INQUIRY

Montreal, May 30.—Investigation of liquor smuggling to the United States, inquiry into the workings of the Canada-United States treaty aimed at the illicit trade and examination of the customs organization here and at border points to determine qualities as well as defects, will feature sittings of the Customs Commission which are to open here Wednesday.

How long the proceedings here will last can not yet be determined, but tentative plans have been laid for the commission to sit in Quebec from June 15, and then the commission will return to the Maritime Provinces. There the hearing will be concluded and a report to Parliament will be drawn.

PIONEERS' STORIES
ARE TO BE RECORDED

B.C. Historical Research Com-
mittee is Named by Alumni
of University

Vancouver, May 30.—For the purpose of obtaining written records of the recollections of pioneers still living on the events of the early history of British Columbia, the Alumni Association of the University of British Columbia has established a special committee of historical research. Under this committee representatives will be named in every part of the Province to interview old-timers and examine documents. Their reports will be forwarded for examination and editing by the central committee in collaboration with an advisory council on which Mr. Justice Murphy, Dr. Walter N. Sage, D. A. McKelvie, Dr. John Ridington and Sherwood Lett have already agreed to serve. In addition it is expected Judge Howay and John Hostie, provincial librarian, will co-operate.

The material thus to be gathered will be filed in the University library and Provincial archives. In addition an effort will be made under the same auspices, to make a collection of Indian relics from various parts of the Province for the University and Provincial museums.

Business Good
In B.C. Now,
Reports Show

Winnipeg, May 30.—The weekly report of the Canadian Credit Men's Trust Association Limited for the week reads:

Halifax—A normal volume of business is being transacted by wholesalers, retailers and manufacturers throughout the province. Collections fair.

St. John—The wholesale and manufacturing trade is satisfactory. Retail trade good. Collections normal.

Montreal—Wholesale groceries appear fairly active. Drygoods normal. A good volume is reported by gentle furnishing dealers, while ladies' wear is somewhat slow but satisfactory. Builders and heavy hardware is moving well. Other lines seem in fair demand. Wholesale and retail collections generally considered good.

Toronto—Wholesalers generally report satisfactory volume of business, good sales being reported by rubber companies, automobile accessories and allied lines, and generally speaking, an average amount of trade is being transacted. Business in general can only be considered fair. Collections fair.

Winnipeg—The wholesale trade generally is inclined to be quiet, although hardware, builders' supplies and automobile accessories are doing a good volume. Retail trade fairly satisfactory, although to some extent has been affected by the adverse weather conditions. Collections slow.

Regina—Wholesale grocery, drygoods and hardware dealers report a fair volume of business. Boots and shoes slow, other lines fairly satisfactory. The retail trade during the last week has been good. Wholesale and retail city collections fair, country retail slow.

Calgary—Both wholesale and retail business continues to show a slight improvement. Collections fair.

Edmonton—Business conditions generally picking up owing to splendid weather. Collections a little better. British Columbia—A fair volume of business is reported by manufacturers. The wholesale grocery business is fair to good. Hardware, builders' supplies, automobile accessories and allied lines enjoying good volume. Other lines fair. Collections fair.

C.G.I.T. Picnic—The last meeting for the season of the Victoria Girls' Council took the form of a picnic for all Canadian Girls in Training and their leaders, held on Saturday at the Willows Beach. In the afternoon games and sports were enjoyed by all. At 6 o'clock about 100 girls sat down to supper, which was eaten around a large bon-fire on the beach. After supper Miss Adam led the girls in a lively sing-song. The devotional period was well taken by two of the girls. The business period being over, the president introduced Mr. Pearce, of the Dominion Astronomical Observatory, who gave a very interesting and instructive talk on the stars, telling several Greek legends about the different groups of stars.

During the evening Mrs. Hammond, president of the Girls' Work Board, gave the announcement for camp which is to be held at Beaver Lake, from July 23 to August 3. A much enjoyed picnic was closed by the singing of "Taps."

The Vacant Chair

WHAT OF TO-MORROW?
To-day you are alive--well
--happy.

But suppose a summons sounds
in the darkness and to-morrow your
chair stands vacant. What, then, of
your wife? Your children--what
of them?

When your presence is no longer
there to provide for them--to
help them over the rough places of
life--even then your care need not

cease. Even then your forethought
may guard them against want and
adversity.

Life Insurance truly stands as
the Guardian Angel of stricken
homes--as a living testimony of
man's faithfulness to his loved ones,
even in death.

Think! Think of those dependent
upon you. Think--and act.
Get in touch with a Life Insurance
representative to-day. To-morrow
may be too late.

LOCAL YACHT CLUB HAS FIRST REGATTA

Asthore Wins Seven-mile
Race; Five Cruisers Race
From Seattle

The Royal Victoria Yacht Club at Cadboro Bay held its first regatta of the season on Saturday afternoon when several races were run off under ideal weather conditions. In the evening the local club entertained at an informal dance in the club in honor of visiting yachtsmen from the Seattle Yacht Club.

In the seven-mile "club" race, the power boat Asthore, J. F. Dick, was the victor. The Lady Joy, owned by N. P. Blane, was second. The Fayth, the Trust, the Dorothy and the Moira were other contestants in this race.

The Boykin, sailed by W. N. Hotham, was first in the four-mile dinghy class race, while second came to the Catboat, piloted by Andrew Wright. Ginger Hotham, sailing the Puffin, was third. Five entries made up this class. After a fine trip across the Straits, five power cruisers from the Seattle Yacht Club arrived at the local yacht club on Saturday afternoon. They made splendid runs, having the second city at different times in the morning and reaching here well before 5 o'clock in the evening. The five cruisers were the Sueja, Capt. James Griffiths, the Blue Peter, John Graham; the Janava and the boats owned by Mr. Blanchard and Mr. Berg. It is thought that the race between Mr. Blanchard's and Mr. Berg's boat. The winners will be finally determined by the motorboat committee of the Seattle Yacht Club.

The next big race in which members of the Victoria Yacht Club will compete will be on June 18 from the Cowichan Bay to the Cowichan Cup.

MANY GUESTS GO TO BANFF HOTEL

Convention Delegates Flock
to Famous Canadian Res-
ort; Others Expected

Banff Springs Hotel, May 30.—Forty-nine delegates of the Association of National Junior Leagues of the United States who have been attending the convention held at Portland, Oregon, last week, will be guests at Banff Springs Hotel this week. Among the delegates who arrived on Sunday were Mrs. Jerome D. Barnum, wife of the publisher of the Syracuse Post-Standard; Mrs. Wilbur Smith and Mrs. Myles Morgan of New York. Mrs. Jerome D. Barnum and Mrs. Wilbur Smith expect to leave for the East on Tuesday via Winnipeg and Minneapolis.

Among the prominent guests expected to arrive at Banff Springs Hotel are Lady Drummond of Montreal, who will be accompanied by her grandson, Master Guy Drummond. They will arrive on June 22, spending several days at Banff and will later visit at Lake Louise. "Sir James and Lady Owen of London, England, who arrived at Quebec on the St. Montclair on May 13, are expected at Banff Springs during July. A special party arriving from San Francisco next week, include Mr. and Mrs. Robert F. Thurston, Dr. and Mrs. Albert M. Barnum, Mr. and Mrs. Frank L. Parker, Mr. and Mrs. Gustav A. Boeme and Miss Ruth Boeme. Mrs. W. J. Ralph and Master Billy Ralph, Winnipeg, who have been spending several months visiting in California and the Pacific Coast, arrived on Saturday to spend a few days at Banff Springs Hotel.

C.P.R. LINER HAS BIG LIST

Empress of Asia, Here Yesterday, Had 1,053 Passengers on Board

Bringing in a total of 1,053 passengers, 330 of whom disembarked here, the R.M.S. Empress of Asia, Commander L. D. Douglas, R.N.R., arrived here at 7 o'clock yesterday morning from Japan, China and the Philippines. Commander Douglas reported a smooth passage, and the vessel was well on her schedule.

Of the large list on board 331 were second class passengers. There were 104 second class, 65 third and 653 steerage. In the second and third class lists there were a number of missionaries and refugees returning from China. These reported that the exodus from that country of Europeans and white peoples will soon be terminated. The steamer list was mainly made up of Filipinos, who are going to the United States to serve as hotel boys, waiters, etc. Three hundred and ninety of these left the ship at this port. The Asia had a total cargo of 3,260 tons, including 2,528 measurements of general cargo and 734 tons of silk. For silk train transportation to the East, there were 3,625 bales of raw silk and 408 cases of manufactured silk goods. For Victoria, the vessel had ninety-four measurements of tons, consisting of 2,200 packages of white rice, 80 cases of firecrackers, 294 packages general and red wine.

Mail shipments were particularly heavy with a large amount of parcel post for New York. About 1,075 bags were put off here, including 60 for local delivery, 15 for airmail and 1,000 for the United States.

Among the prominent passengers on board were: Sir Harold Parlett, retiring counsel of the British Embassy at Tokyo, returning to the United States; Major B. S. Benning, the Marconi wireless representative in Japan, en route to headquarters; the Misses Wanklyn and Truett, who have been organizing Girl Guides in various parts in the Orient; W. Botterill, secretary of the Willingdon Old Club in Bombay, en route to England; F. S. Chase of the U.S. Department of State, going to Washington with his family; Bishop Wm. C. White of the Methodist Episcopal Church, returning from the Orient; R. S. O'Mara, Canadian Trade Commissioner in Batavia; R. C. Trendwell, U.S. general consul at Hong Kong, en route to the United States; Commander R. Leckie and Lieut. Commander Annots, of the British Navy, on leave, and Mrs. Owen O'Malley, wife of the British Charge d'affaires in China, returning to England.

LIQUOR VESSELS ARE CAPTURED OFF COAST OF P.E.I.

Pictou, N.S., May 30.—With liquor cargo valued at \$100,000 waiting to be unloaded here, the St. Pierre schooner Alameda and the schooner Hoxall, owned in Newfoundland, were in Pictou Harbor Saturday, under heavy guard. The vessels were seized off the coast of Prince Edward Island by the Canadian Government cruiser Margaret and make the first prize captured by the cruiser within the past three weeks.

A NEW PRIDE OF THE EASTERN COASTWISE LINES—A new pride of eastern coastwise passenger lines this—the steamship New York, skippered by Captain Harland W. Robinson, recently placed in service between New York and Boston.

YUKON OPENING LATE THIS YEAR

Seattle, May 30.—Ice conditions in Bering Sea this Spring are the most unusual to cause delay to shipping, according to word received in Seattle by J. H. Wagner, chief of the Alaska division of the United States Bureau of Education. The mouth of the Yukon is still blocked with ice and a very late season is predicted for the lower part of the great Alaska river. Ice fields extend from Nome to Cape Prince of Wales. The Pribilof Islands are still icebound, while St. Lawrence Island reports that the snow is melting and the ice is rapidly disappearing north and south of the island.

It is believed it will be very late this year before the mouth of the Yukon is cleared of ice and ships can reach the Pribilof Islands of Bering Sea.

YOKOHAMA MARU DUE WEDNESDAY

N.Y.K. Liner to Arrive From
Orient Morning of June 1

With nearly 200 tons of cargo for Victoria and twenty-four passengers, the Yokohama Maru will arrive at William Head quarantine station on the Far East Wednesday morning, according to wireless advice received from the vessel by A. H. Hebb, local agent. The Yokohama, which is in command of Y. Kawashima, has a total passenger list of sixty-two. Of these, ten first class and fourteen third are for Victoria and fifteen first and twenty-third third for Seattle. In addition to cargo, she also has thirty-four bags of mail for this port and eleven for air mail.

SMUGGLING TREATY VIOLATION IS URGED IN VESSEL SEIZURE

San Francisco, May 30.—The liquor laden steamer Coal Harbor seized by the coast guard thirty-one miles off San Francisco on February 17, 1925, was violating the British-American smuggling treaty, a deputy United States attorney told Federal Judge Kerrigan in court Saturday. The case of the seized ship bobbed up when Government counsel presented arguments supporting their claim to resist a motion to dismiss indictments against James B. Lloyd, master of the Coal Harbor. The case of the seized ship bobbed up when Government counsel presented arguments supporting their claim to resist a motion to dismiss indictments against James B. Lloyd, master of the Coal Harbor. The case of the seized ship bobbed up when Government counsel presented arguments supporting their claim to resist a motion to dismiss indictments against James B. Lloyd, master of the Coal Harbor.

VESSEL MOVEMENTS

JUST ISN'T DONE

"Baby's getting on wonderfully—I'm sure she'll be able to walk soon." "Do you think it's worth the trouble of teaching her? Hardly anybody walks much nowadays."—Everybody Weekly.

FLORIDA MARU IS HERE FOR LUMBER

Will Take on 900,000 Feet
Here For Yokohama and
Osaka

With her holds already well stocked with lumber from B.C. ports, the Yamashita Company's freighter Florida Maru arrived here from Vancouver at 12.30 a.m. today to complete for Yokohama and Osaka. The Florida Maru will take on 900,000 feet here, most of this being Japanese squares. The Sydney Mills have 350,000 feet for the vessel, the C.P.S. 225,000 feet, Moore & Whittington Company 200,000 feet. Loading commenced first thing this morning and the vessel will probably get away to sea Wednesday.

Eddie Hubbard Again Awarded Mail Contract

Seattle, May 30.—Word was received here Saturday that Eddie Hubbard, pioneer air mail pilot, has been awarded the contract for another year. His bid of \$190 a round trip was the lower of two bids.

Although the Seattle-Victoria service is now operated in Eddie Hubbard's name, the popular pilot is not flying the machine, which means that the wireless advice received from the vessel by A. H. Hebb, local agent.

The Yokohama, which is in command of Y. Kawashima, has a total passenger list of sixty-two. Of these, ten first class and fourteen third are for Victoria and fifteen first and twenty-third third for Seattle.

Chinese Fire on Yacht Club Fleet

London, May 30.—A Shanghai dispatch to the Exchange Telegraph Company says that, ignoring the promise of immunity given by the Chinese admirals and generals, Chinese troops opened fire with machine guns on the yacht club fleet which turned out for the races, many of them flying the British flag. Several yachts were hit but there were no casualties.

A United States naval patrol escorted the yachts on their return. Hartlepool, Eng., May 28.—When German aviators bombarded this city twelve years ago, Mrs. Sarah Stringer was one of the casualties, suffering several shrapnel wounds. They never healed properly and when she died recently the coroner's jury returned a verdict of "death following wounds received during the bombardment."

TRANSPACIFIC MAILS

Aorangi—Mails close June 1, 8 p.m. due at Auckland June 20, Sydney June 23.

MISSIONARY EXODUS BIG

Two-thirds of All Missionaries
Have Left China Since Be-
ginning of Year

Approximately 4,000 missionaries have been driven from their posts in China since the first of the year according to Bishop William C. White of the Church of England, who passed through here Sunday from Kaifeng, Honan Province, China. This number represents two-thirds of the total mission strength in the entire country here said. Whether the upheaval in the Orient had wrecked their work permanently was a question on which he said the missionaries were divided. "Many, however, seemed it was useless to attempt to resume, he declared. "My own opinion is that the work conducted by churches with a loose organization will go under," he said. "For ourselves, we saw this coming and prepared for it by establishing a native church. As a result to-day we have our house and most of our other institutions operating as usual in Honan, managed and staffed by Chinese. This self-controlled native church will stand while organizations not so firmly rooted in Chinese soil will topple, I think." The bishop who was among the passengers brought here on the Canadian Pacific liner, the Empress of Asia, is on his way to Kingston, Ontario, where he will attend the forthcoming general synod of the Church of England in Canada.

Lumber Shipments Exceed Production

Washington, May 30.—The softwood lumber movement in the week ended May 21 was devoid of any substantial change from the week before, according to reports received from 382 mills by the National Lumber Manufacturers Association. The figures for production, shipments and orders in each instance are lower, but after allowance for seventeen fewer mills reporting, it is estimated that fully comparable figures would show the last week somewhat ahead, particularly in new business. Comparison with the corresponding week of last year is still more difficult because of disparity in the number of mills, but it is clear that in all three factors the present year is materially lower. Shipments are found to be six per cent. and orders nine per cent. above actual production and this production four per cent. below normal.

NEWS IN BRIEF

Victoria Lodge Number One Odd Fellows will hold a social to-night at its headquarters on Douglas Street.

G. S. Ford was fined \$5 in the city police court this morning for parking his car other than parallel to and no more than six inches from the curb.

Members of the Sons of Canada have been cordially invited to join the Canadian Daughters in the reception on Tuesday evening and the banquet on Thursday evening at 6.45, arranged in connection with the provincial convention of the daughters.

The Partner Whist Drive and Dance advertised to take place on Tuesday, will not be held to-morrow, but on Wednesday, June 1, at the Sons of England Hall, Broad Street. The members extend a cordial invitation to the general public, valuable prizes will be given.

Charges of assault involving three taxi and sight-seeing car operators were adjourned in the city police court this morning until Wednesday morning. A. E. Chilton has laid information against S. C. Sangster, and Sangster has retaliated with a similar charge against Chilton and H. B. Olson.

Wen Joe, a Chinaman, was fined \$15 in the city police court this morning for being in possession of opium smoking paraphernalia. Sergeant Thomas Heatley of the city police force, while in Chinatown came upon Wen Joe with his pipe and needles, lamp and scissors, but without any of the narcotic. Wen pleaded guilty.

Through the generosity of the Arena management, residents of the Old Ladies and Old Men's Homes, Children's Aid Home, and the Orphans' Home, enjoyed the concert by the Australian band at the Arena Saturday night. H. B. Olson provided three parlor cars and the Veterans' Sightseeing and Taxi Company one parlor car to take the guests to and from the arena. E. A. Morris provided cigars for the men; Brown's Victoria Nurseries gave flowers; Rochon and Stevenson's donated candy. Joe North organized the affair.

Victoria merchants who plan to enter the United Commercial Travelers' window dressing competition, being held in connection with the Grand Council convention this week, are reminded by Chairman W. Hayward that Tuesday is the last day to enter. They are requested to notify Mr. Hayward immediately. The windows are to be judged Wednesday morning by well-known window dressers. The conditions of entering the contest are that the display be in U.C.T. colors, royal blue, white and lemon yellow, and be in by Wednesday morning, remain in during the convention, June 3 and 4.

SINCLAIR J. HERD
DIES IN HOSPITALProminent Liberal and Native
Son Passed Away Sunday

Sinclair John Herd, a native son of Victoria and long prominent in local Liberal circles, passed away at the Royal Jubilee Hospital last evening. About a year ago Mr. Herd met with a slight accident, which while it seemed small in itself at the time, led to other troubles, and about a week ago he was admitted to the hospital for treatment, but failed to rally.

The late Mr. Herd was born in Victoria on June 16, 1884, and was the son of Mrs. Mary Herd of 1123 Johnson Street and the late George Herd. He was educated in the local public and high schools, and at the Canada Business College, Chatham, Ont., where he was gold medalist. He was married to Mrs. Herd in 1913. Later he graduated with honors from the Zanerian Art College of Columbus Ohio.

A staunch upholder of the Liberal cause, Mr. Herd was formerly secretary of the central executive of the Liberal Association. He was also prominent in the Sons of Canada, and was a member of the Victoria Lodge, A.F. and A.M. He is survived by his mother and two brothers, Fred, at home, and Hope, at Powell River.

The funeral will be held from the Thomson Funeral Home on Wednesday at 2.30 o'clock. Interment will be made in the family plot at Ross Bay cemetery.

OBITUARY

News reached the city late Saturday of the death in Oakland, California, of William Jones, formerly of Victoria, who succumbed to injuries following a fall. Mr. Jones is survived by his widow, who was well known in local musical circles.

Funeral services were held at the B.C. Funeral Chapel this morning over the remains of Mrs. Elsie Rhymer, G. A. Birkenhead of Vancouver conducted the service in the presence of many sorrowing friends. Many beautiful flowers covered the casket. The pallbearers were S. D. McNeil, A. R. Gray, S. Jennings, E. F. Buckler, A. J. Bird, and H. Atfield. Interment was made at Ross Bay Cemetery.

Thomas Thompson, a resident of this city for about ten years, and a former prominent grain-merchant of Brandon and Winnipeg, died suddenly at his home, 484 Chester Street, this morning. The late Mr. Thompson is survived by his widow, residing here, and two sons in Winnipeg. The remains are resting at the Thomson Funeral Home, pending funeral arrangements.

At the family residence, Bolekine Road, last evening, the death occurred of John Charles Metcalfe. He is survived by his widow, four sons and four daughters. The remains are resting at McCall Brothers' Funeral Home, pending burial arrangements.

Funeral services were held at St. Andrew's Cathedral this morning at 8 o'clock over the remains of the late Mrs. Catherine Bertucci. Rev. Father Silver conducted mass. Interment was made at Ross Bay cemetery. The pallbearers were Batista, Nicholas, Joe and Fred Bertucci.

SUGGESTED SUIT BE
ENTERED BY CITYAction Against Timber Operatives
Advised by Water CommitteeSuperannuation and Zoning
Other Measures to be
Therated at Session

A straight recommendation from its water committee that suit be entered immediately against the contract holders of the Goldstream timber on the City of Victoria will be laid before the City Council to-night, according to Alderman E. S. Woodward, chairman of that committee. The city claims \$34,500 and interest as due under the original agreement entered into between Fairbairn and O'Brien, and the former Goldstream Water Company.

Reintroduction of the superannuation issue may reach the council later in the week, by way of a special committee composed of Aldermen William Marchant, H. C. Holmes and P. R. Brown. The committee appointed to investigate the pension plans will have three suggestions before it, that of the Provincial Government plan, suggested by D. A. Macdonald, city comptroller; an alternative suggestion by Alderman William Marchant; and a variation of the plans by Alderman E. S. Woodward. The building committee was tabled until after the estimates had been completed, and will now be taken up again, it is intimated.

Introduction of the interim zoning by-law for final reading may take place to-night. The temporary by-law was amended to meet the representatives of Victoria builders, and will be passed in a form that is believed to have already overcome the initial objections to the measure more fully explained.

REMEMBER GROWTH
WHEN PESSIMISTICSpeaker at Gyro Club To-day
Relates Wonderful Advance
of Island and Coast

"When some people get pessimistic and are disappointed in conditions here they should just look back eighty-five years and consider the change that has come over this entire coast. The cities have sprung up out of the forests and the development which has taken place," declared Aubrey Kent in speaking to the Gyro Club at their luncheon to-day. Mr. Kent, who is a director of the club, spoke on the "Early History of Vancouver Island."

"We must remember the change which has taken place, for I am sure that the men here to-day whose grandfathers were among those who settled here in those early days," went on Mr. Kent. "We sometimes lose sight of the stupendous change which has come over the coast and of the great cities that have sprung up."

Mr. Kent said that 340 years ago Drake sailed as far north as the 48 degrees of latitude, and 333 years ago Juan de Fuca discovered and named the straits on which Victoria is situated. He said that the first white man to set foot on the coast was Captain Cook, who followed the voyages of Capt. Cook, who had with him as a midshipman, George Vancouver. James W. Ross, a retired lieutenant of the Royal Navy, with Vancouver Island, was vividly outlined by Mr. Kent. He told of the expeditions fitted out by Mearns in China, of the building of the first ship on the island, the sealing industry of the coast, said the speaker, and for a few souvenirs secured \$20,000 worth of skins from the natives.

The connection of Mearns, a retired lieutenant of the Royal Navy, with Vancouver Island, was vividly outlined by Mr. Kent. He told of the expeditions fitted out by Mearns in China, of the building of the first ship on the island, the sealing industry of the coast, said the speaker, and for a few souvenirs secured \$20,000 worth of skins from the natives.

CEREMONY AT
PEACE ARCH

Victoria representation is invited at the Canadian-United States ceremony to be held at the Peace Arch, Blaine, on July 2, when a function commemorative of international goodwill along the 3,000-mile boundary line is to be featured. Vancouver is co-operating with United States interests in the joint celebration. Mayor Louis D. Taylor, in Victoria to-day, called on Mayor J. C. Pendray and left an open invitation to the function.

"MISS CANADA"
HOME AFTER HER
BEAUTY TRIUMPHS

"Miss Canada" returned to her home in Victoria to-day from Galveston, Texas, where she represented this country at the International Pageant of Pulchritude and won fifth prize.

This is the first time Miss Madeline Woodman has been in Victoria since she left here after winning the local beauty contest for the title of "Miss Victoria." The day after she won the national beauty title of "Miss Canada" in the finals in Vancouver, she started South for Galveston. On her way she was filmed at the Paramount Studios at Hollywood.

"It has all been just too wonderful, and I don't know when I'll cool down enough to tell all about it," Madeline said as she came off the boat. "It was like a dream when I left home as 'Miss Victoria' and it is now more than ever like a dream to me."

Her mother, members of her family and friends were at the wharf to greet her. As soon as the greetings were over, she was taken in charge by R. C. Ross, her manager, who had her escorted to her home in a shiny sports roadster.

ZONING BY-LAW
RECEIVES PRAISEDominion Convention of Town
Planners Discuss Mutual
ProblemsPresident-elect Buck Con-
gratulates Victoria Delegates
on Ordinance

Victoria's initial zoning ordinance, the zoning by-law now under consideration by the City Council, won high praise at the Dominion convention of town planners, held at the University of British Columbia, chosen president of the Dominion organization, classed the Victoria by-law draft as the best all-around measure that he had seen on town-planning matters so far. There could be little objection to its terms, which were wide and permitted of a great degree of control without hardship on those affected, he intimated.

Victoria was represented at the gathering by Ald. H. C. Holmes, and J. H. Doughty-Davies, city zoning engineer; and through R. P. Blandy, municipal assessor and clerk at Oak Bay.

Vancouver passed its interim zoning by-law in February, and its co-operating in nearly all its outlying districts in putting the town-planning control system into effect. In the Greater Vancouver zoning measure Vancouver is supported by South and West Vancouver, Burnaby and other municipalities conforming to a general plan.

The interim zoning by-law may go before the City Council to-night for final reading. The ordinance of an appeal board and the passage of the permanent zoning measure would follow in due course.

H. N. SMITH LEAVES
VICTORIA COLLEGEResignation Announced To-
day; Two New Professors
For Faculty

George Jay, chairman of the Victoria School Board, announced this morning that Herbert H. Smith, since September, 1926, the registrar of Victoria College, has resigned that post and will leave at the end of the present school year.

Victoria College will lose a valuable and well-liked member of its staff, with the resignation of Mr. Smith. Mr. Jay said that Mr. Smith followed Dr. E. J. Paul out of college faculty life.

Mr. Smith originally came to Victoria to take the reins of authority at the Victoria High School in September of 1921, succeeding Dr. Alexander Robinson, another eminent educationalist. For many years before that Mr. Smith had been in educational work in the prairie provinces.

ADD TO FACULTY
Mr. Jay further announced to-day that E. S. Farr and J. A. Cunningham, two men prominent as educationalists in the British Columbia, had been added to the Victoria College faculty and would serve in the coming session. Professor Hartley would resume his duties at the University of British Columbia, from which institution he was sent to the Victoria High School in September of 1921.

With Prof. Elliott as principal of the institution, and a staff which has every appearance of having been reorganized to face a future of expansion and progress, the Victoria College is making a strong bid for status of first and second years of arts and science in 1927-28.

The road to Sooke Harbor which has been under construction for some time will be completed this week. It has been considerably widened and many corners have been taken off. No road on Vancouver Island and in the coming season of first and second years of arts and science in 1927-28.

The road to Sooke Harbor which has been under construction for some time will be completed this week. It has been considerably widened and many corners have been taken off. No road on Vancouver Island and in the coming season of first and second years of arts and science in 1927-28.

VICTORIA ROTARIANS
HOSTS TO EVERETTGolf at Colwood and Banquet
at Empress Hotel Provided
Visiting Rotarians

Everett Rotarians and their ladies visited Victoria on Saturday as the guests of the Victoria Rotary Club. A majority arrived on the afternoon ferry from Seattle, others driving their cars by the Sidney ferry.

Golf at Colwood was the major attraction of the afternoon. At 7.30 o'clock the Victoria Rotarians were hosts at a banquet in the Empress Hotel grill-room, attended by 100 Rotarians and ladies. President James H. Fletcher of the Victoria Rotary Club presiding in the chair. Brief speeches were given by President Frank McChesney and Past District Governor Clayton Williams of Everett, and District Governor-elect H. Manny of Seattle.

The Everett Rotary Club provided a novel musical programme, and Miss Eva Hart delighted the guests with a group of three solos. Following the banquet the Rotarians adjourned to the Crystal Garden for dancing, the Everett delegation being guests of Manager Ivan Awde. Non-dancing visitors were the guests of Lester Patrick of the Arena, to hear the Australian Band.

TICKET AGENTS
SEE CITY SIGHTSC.N.R. Educational Party Are
Accompanied by Local Pub-
licity Men on Tour

Accompanied by George I. Warren, publicity commissioner, Barney Olson, proprietor of the Grayline Tours, and C. F. Earle, district passenger agent of the Canadian National Railway, on their tour of the city and surrounding attractions, twenty-five senior ticket from the offices of the Canadian National Railway in Eastern Canada yesterday saw Victoria as part of the educational tour through Canada to view attractions at first hand.

George I. Warren was with the visitors from the time they arrived in the morning at 7 o'clock until they left on the 11.45 p.m. boat back to Vancouver. Using the new parlor car deluxe of the Grayline, Mr. Warren, as their conveyance, with Mr. Olson himself at the wheel, the party proceeded after breakfast yesterday to the Dominion Astrophysical Observatory at Little Saanich Mountain. Through the co-operation of Dr. J. S. Plaskett and Hugh Little they were able to learn of the workings of the observatory.

Following the visit the party inspected Butchart's Gardens at Brentwood and expressed themselves charmed with the lovely settings. They crossed to Mill Bay on the ferry Cade and were driven to Cobble Hill and Cowichan Bay, inspecting at the latter point the operations of the Canadian National in hauling logs to the booming grounds in the Bay. Luncheon was eaten at the new Cowichan Bay Inn.

Here Mr. Warren pointed out briefly the importance attached to the publicity work which the agency could give to the city by urging travelers to stop off for a day or two here to see the sights. "Hundreds of thousands of tourists every year are directed to the Pacific Northwest," he said, "and are told that they can see Victoria during the stop-over between the Vancouver and Seattle boats. All these people are denied the opportunity of seeing all which you have seen to-day through lack of time."

Mr. Olson also spoke at the luncheon, speaking of the fine bus services now running on the Island and mentioning particularly the new Victoria-Nanaimo route.

On the return trip to the city, the party visited the Skagitum and afterwards Hamsterley Malahat and Colwood Golf Links.

During the evening they were entertained at the Empress Hotel, through the courtesy of I. W. Awde, all members of the party enjoying a swim in the clear tanks of the Garden.

Before leaving for the Maynard, T. P. Fringe, general agent of the Canadian National Railway, who is directing the tour, expressed great pleasure on behalf of the party for the excellent time they had during the day. He mentioned the great number of inquiries received by agents all over Canada, which point to a heavy traffic of Canadians from one point to another of the Dominion this year.

GREAT INTEREST
"Canadians have been displaying greater interest in their own land," he said, "and many are realizing that there is a great deal to be seen in the Dominion, both east and west, and returning travelers have spread the tale of the wonders of the west and have recorded that there are conveniences of trains and hotels not to be surpassed anywhere on this continent. Such reports as Minski and Jasper Park now have established reputations. Jasper Park has made a particular appeal, especially through persons of international fame who have visited this wonderful preserve and who have spread the story of its glories."

All of the National Parks are attracting attention and the fact that the Federal and Provincial Governments are doing so much towards fish, game and forest conservation has interested people elsewhere with the result that many inquiries have come to us from all parts of the Empire, United States and other countries. The fishing opportunities offered in every part of Canada are most alluring and in the heart of every man there always remains the desire to catch a big fellow, with the rest of each season finds more fishermen crossing the line to find pleasure in Canadian lakes and streams.

NEW SERVICES
"As further indication of the growing passenger travel, I may point out that this season three new trains are being added to the Canadian National service, one to be known as 'The Acadia' will operate between Halifax and Montreal to relieve the present service which must bear heavy demands from Spring to Autumn; one other 'The Confederation' will operate between the East and the Pacific Coast. The name is in honor of the Diamond Jubilee Celebration of the Confederation, while the sleeper used on this train will bear the names of fathers of Confederation. A third new train is 'The Maple Leaf' running from Toronto to Chicago considerably adding to that service, particularly in

MUSIC
IS AN ESSENTIAL PART
OF EVERY CHILD'S
EDUCATION

WE would like every parent who reads this to ponder well the thought that almost every child has an aptitude for musical study if given the opportunity. This is the considered judgment of men and women who have spent years in the management of Canadian schools and colleges. Furthermore they consider that the study of music offers a constructive relaxation that should form a part of the well-rounded school life.

The pianoforte is practically the only solo instrument complete in itself and as such it is the choice of the vast majority of parents who decide to give their children the benefit of a musical education. We, who have had forty years' experience in such matters, go even further and suggest that the original "Ye Olde Firme" Heintzman & Company be the selected piano for your home. The selection of this world-famous Canadian instrument will engender an appreciation of "things Canadian."

Notable Cast Comes To Capitol in "Notorious Lady"

Principal Scenes of First National Feature Play Are in Africa; Specialties on Bill Include Three Vaudeville Turns

Lewis Stone, Barbara Bedford and Ann Rork are the feature players of a notable cast in "The Notorious Lady," the Sam E. Rork production for First National, which opened to-day at the Capitol Theatre for a week's run.

Mr. Stone has the role of John Carew, soldier and adventurer, and critics say it is one of the best ever created for him. Miss Bedford is "The Notorious Lady," whose notoriety, incidentally, is gained through a sacrifice for her husband Carew. Ann Rork, a newcomer in First National pictures, acclaimed for her work in "The Blonde Saint," has a colorful role of a half-caste beauty.

Principal scenes in "The Notorious Lady" are in Africa, where Carew (Stone) seeks to lose his identity and forget the past.

"The Notorious Lady," a First National release, was produced by Sam E. Rork, and King Baggot was especially engaged as director. Tony Gaudio, acclaimed one of the outstanding photographers of Hollywood for his work in "The Temptress" and "The Blonde Saint," did the photography for "The Notorious Lady."

The specialties on this week's bill at the Capitol Theatre include three high-class vaudeville turns, Vance and Violette in a "vaudeville skit" Krause and Barnes, two boys in dancing shoes offer a novelty, and Alma Roscoe the

Tragic Situation of Married Life Theme of Columbia Play

Pat O'Malley and May Busch in "Perch of the Devil"

One of the commonest and most tragic situations in modern life, that of the married couple who suddenly acquire great riches and find that their wealth is estranging them is the story told in "Perch of the Devil." King Baggot's latest Universal production which comes to the Columbia Theatre to-day.

Gertrude Atherton, author of the novel from which the picture story was taken, based her plot in Bertie, Montana, and made her heroine an ambitious, tremendously attractive young girl of no position who marries a young mining engineer.

When he suddenly realized great wealth from his mining properties, both realize that she is not fitted for a social position, and she makes a desperate struggle to keep her husband by working furiously to elevate herself to his position.

Buster Keaton in Lavish Comedy on Screen at Coliseum

Comedian's Most Pretentious Effort Cost \$500,000 to Produce

Coming this week to the Coliseum Theatre is the costliest and most lavish comedy ever produced, "The General." Buster Keaton's laugh and thrill feature of the civil war. The biggest comedy spectacle of the sixties, the comedian's most pretentious effort, cost \$500,000 to produce, and places Buster Keaton in the same category with Charlie Chaplin, Douglas Fairbanks and John Barrymore. In fact we consider in this production he is the greatest of them all.

"The General" is unique in filmdom, in that it pictures a true story of the sixties, is historically accurate, contains thrills never duplicated in the biggest dramatic photoplays, and at the same time is a comedy from the opening fade-in to the final fade-out.

The story deals with the feat of a band of Northerners who stole a train and raided Confederate territory during the early part of the Civil War. They tore up track, destroyed telegraphic communication and would have disrupted the South's military plans had it not been for a young Confederate locomotive engineer who chased them single-handed and finally caused their capture.

This foolhardy lad comes to life on the screen in the person of Buster Keaton. He and his frozen-face get laughs out of the most dangerous situations and take part in crucial battles as if they were pink teas.

Vaudeville is again the stage attraction offered by the Coliseum, and comprises five acts which are all reported as being extremely good. Miss Bede Holden, who has been delighting the audiences for the past week, has been held over for another week on account of her popularity. The usual good music and courteous service will keep up the good name of the theatre.

AUSTRALIAN BAND, IN CONCERTS HERE, UPHOLDS REPUTATION

Enthusiastic Receptions Given By Audiences at Arena

In two concerts at the Arena Saturday afternoon and evening the Australian National Band was accorded enthusiastic receptions by Victorians, although the crowds in the big auditorium seemed small.

The band proved itself a well-trained aggregation of musicians, quite accomplished in their solo and ensemble work and with a fine sense of appreciation of band music values. The band was always under perfect control, and an extraordinary tonal smoothness characterized its numbers. It is quite conservative and classical in its methods, not even using any saxophones or saxophones, to which devotees of popular music have become so accustomed in these parts.

In the afternoon they gave Washington Gray's march, "Bohemian Girl" overture, the grand selection from Samson and in Deliah, scenes from Maritana, and a number of musical fragments and dance numbers, humorous and jassy. Thomas Bollen, cornet soloist, rendered "Silver Showers," while Charlie Collins gave "Land Me Your Aid" as a trombone solo.

The evening programme included "La Russe" march, the "William Tell" overture, embarking dawn, storm, pastorage and finale, selection from Weber's "Der Freischutz," excerpts from "Lucia di Lammermoor," including the sextette, Hummer's "Day With the Huntsmen," a musical sketch of tuxedo snatches from patriotic and popular airs of various countries, and some jazz dance numbers. In which the young musicians tore loose. Arthur Stender gave "Zelda" as a cornet solo, while Harold Reid, the drummer, gave three or four wonderfully clever xylophone solos.

Altogether the band proved itself well worthy of the reputation it has established in its former international tour.

Sunday the members of the band went sight-seeing, and were guests at Butchart's Gardens. Sunday night they visited the City Temple. From here they are going to the mainland, and next week will cut into Seattle for the first of their series of concerts in the United States.

NAVY LEAGUE BAND REACHES MONTREAL

Montreal, May 30.—Under charge of Captain R. J. Van der Byl, representative of the Navy League of Canada, the Navy League boys band of Victoria arrived in Montreal yesterday. The boys band will sail from this port to Cardiff. The return journey to Canada will be made from Swansea on August 26.

MANY REINDEER KILLED

Leningrad, May 30.—Word comes from Northern Siberia that the natives of Arctic villages, thinking angry gods had decided there shall be no summer, are killing scores of precious reindeer as sacrifices. It is unusually cold there, the warmest lately being 35 degrees below zero.

PERTWEE COMEDY TO BE OFFERED TUESDAY AT CRYSTAL GARDEN

MRS. LEGGE-WILLIS

The Co-Optimist Comedy Company will present Roland Pertwee's rippling farce "Evening Dress Indispensable" at the Crystal Garden Tuesday evening concert. Those who take more than passing interest in stage matters will welcome the opportunity to see this play. Written by one of the most brilliant present-day writers, it has created a furore of comment wherever it has been presented. As the writer so naively describes it, "Evening Dress Indispensable" is an utterly nonsensical play. Miss Ella Pottinger will take the part of the young girl who becomes utterly bored with life. The attentions of her young man, L. I. Phillips, become utterly tiresome; dinners, theatres and dances hold not the slightest interest. Then mother, Mrs. Legge-Willis, finds the remedy and applies it with startling and amusing results. Mrs. Sturrock and Mr. Legge-Willis have parts to take which have much to do in revealing to the young lady the absurdity of her folly.

The Crystal Garden orchestra will also be heard in a number of splendid concert numbers and the evening will conclude with a popular dance to which the entire audience is invited.

Montreal Child Starved to Death

Montreal, May 30.—The search for four-year-old Emile Brazola, who had been missing from his home for four days, ended yesterday with the discovery of the youngster starved to death in a field in the north end of the city.

For four days police, firemen and citizens had conducted a search for the boy. The body was discovered by a young girl playing in the field.

Five Vaudeville Acts to be Given On Playhouse Stage

Earle Murray Presents Promising Bill For Farewell Week

Earle Murray presents for his farewell week at the Playhouse a five-act vaudeville bill. He will act as master of ceremonies throughout the show. The bill will be headed by the sketch, "Green Eyes." Peggy Lewis will be heard in a songlogue and will also appear in several sketches. Jimmy Howard will present his whistling act. Harold Bechtel will be seen in several comedy bits and in the sketch, "The Great Truth." Presenting his hand shadow-graphic act, and as an added attraction, a mid-reading act will be offered.

One of the finest character actors on the screen, and one of the screen's most interesting personalities off it is Jean Marsholt. So splendid a performer is he, indeed, that Universal has decided to break all precedent and star him in pictures, although roles of his

type are not generally of starring material. His first starring production, "The Old Soak," will be shown at the Playhouse Theatre all this week.

Alec Francis Cast As "Peter Grimm" in Variety Picture

Role in Which David Warfield Won International Renown

Victor Schertzinger's sixth production for Fox Films, "The Return of Peter Grimm," is at the Variety Theatre for a six-day run, with Alec. B. Francis in the name role in which David Warfield won international renown.

Leading romantic roles were assigned Richard Walling and Janet Gaynor. The cast includes John St. Polla, Elizabeth Patterson, John Roche, Florence Gilbert, Lionel Belmore, Miskey McBan, Sammy Cohen and others.

The screen version of the Belasco play is by Bradley King. The stage play was produced by David Belasco and proved to be an outstanding success.

BUILT FOR SLEEP by SIMMONS Ostermoor

brings healthful sleep. The cost is low because the Ostermoor lasts so long.

Never Such Drama! Never Such Adventure!!

She had sacrificed her name to save him and he called her "Fickle!" Would SHE ever know how that word tore his heart?

Would HE ever learn that she was innocent?

Famous Pugilists Add To Realism of Dix Picture

"Knock-out Reilly" at Dominion Theatre Brings Together Many Who Attained Ring Fame

A cast that reads like a page from a Spalding Boxing Guide supports Richard Dix in his new Paramount picture, "Knock-out Reilly," at the Dominion Theatre this week. Names that have appeared in thousands of sport pages are in the list of players that Director Malcolm St. Clair, himself an ardent fight fan, selected.

Jack Renault, famous contender for Gene Tunney's heavyweight championship, plays a featured role as Killer Agerra, Mexican fighter from whom Dix wins the championship in the fight climax of the picture.

Graham MacNamee, nationally known radio announcer of Station WEA, who broadcast the Dempsey-Tunney fight, is at the ringside microphone.

Joe Humphries, whose fog-horn voice has announced all the big championship fights for the last twenty years, is the ring announcer for the Dix-Renault bout.

Patsy Haley, former bantamweight and now a leading New York referee, is the "third man in the ring." Jimmy DeForest, who has trained Jack Dempsey and other famous fighters, is one of Dix's seconds.

Kid McPartland, former lightweight and now a referee, is the timekeeper.

Playing dramatic roles in the picture

Pile Sufferers

Can You Answer These Questions?

Do you know why ailments do not give you quick and lasting relief?

Why cutting and operations sometimes fail?

Do you know the cause of piles is internal?

Is there a stagnation of blood circulation in the lower bowels?

Do you know that there is a harmless internal remedy discovered by Dr. Leonard?

And known as HEM-ROID, now sold by MacFarlane Drug Co. and druggists everywhere, that is guaranteed?

HEM-ROID banishes piles by removing the cause, by freeing blood circulation in the lower bowels. This simple home treatment has an almost unbelievable record for quick, quick and lasting relief to thousands of pile sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID to-day. It will do the same.

HEM-ROID to-day. It will do the same.

"JUST STARTING," IS LILLIAN GISH'S COMMENT ON HER CAREER

Hollywood, Calif., May 30.—Fifteen years in pictures—and she's just getting started.

That's what Lillian Gish told me the other day. It all came about when I asked her what she was going to do when she completed her film career.

"That time is so far distant that I haven't given it a thought yet," replied Miss Gish. "Why, I have barely started in the picture world. Of course, I shall have to be very particular what type of roles I play. But I believe my best performance is still to come."

TWO KINDS OF ADVANCE

Lillian Gish is of the opinion that the advancement of films will be a movement favorable to her work. The stories that will be told on the screen will be her type.

"We must go ahead in this business," declares the actress. "Our advance can be in two channels—technical and story. We are much nearer perfection right now in our technical methods than we are in our story material. The motion picture public is rapidly becoming educated. We no longer have to base our films on weak plots and fill them with hokum. We are now coming to the point where we can suggest things instead of showing them outright."

"Another change will be away from great spectacles. The stories of a few years hence will have a powerful human interest appeal and will be built around small casts. Magnificent sets with thousands of people will be unnecessary."

"This departure from our present type of stories will soon become essential because of the ever-increasing foreign demand for our production. Our pictures are far superior to those made in foreign countries. Even in Germany, the centre of Europe's film industry, the general run of programme pictures is very poor."

"To increase the world-wide demand for our films, we must get away from stories dealing only with American life or the life of some definite country. Stories will have to carry a universal human appeal with no definite settings. The time is not far off when America will comprise only forty per cent of the film market."

Miss Gish is now making "The Wind" with Lars Hanson. It is a rather pessimistic story of early Texas ranchers in which the wind plays a prominent part.

LILLIAN GISH

in foreign countries. Even in Germany, the centre of Europe's film industry, the general run of programme pictures is very poor.

UNIVERSAL APPEAL

"To increase the world-wide demand for our films, we must get away from stories dealing only with American life or the life of some definite country. Stories will have to carry a universal human appeal with no definite settings. The time is not far off when America will comprise only forty per cent of the film market."

Miss Gish is now making "The Wind" with Lars Hanson. It is a rather pessimistic story of early Texas ranchers in which the wind plays a prominent part.

FIFTH ANNUAL B.C. MUSIC FESTIVAL OPENED TO-DAY AT VANCOUVER

Over 4,000 Taking Part; Many Entries From Victoria; Will Conclude Saturday Evening With Big Concert

By G. J. D.

The fifth annual British Columbia Musical Competition Festival opened this morning at Vancouver at 10 o'clock, and will conclude on Saturday evening with a final concert in the Arena. There are 750 entries and nearly 4,000 contestants will participate. The four adjudicators are Thomas Frederick Dunhill of London, England; Dr. Frederic Staton, prominent conductor in the Midlands of England; Edgar L. Bainton, principal at the New-castle-on-Tyne Conservatory of Music, and Miss Alice Leone Mitchell, B.L.I., a Canadian of Winnipeg, graduate of the Provincial Normal School of Nova Scotia, and a graduate of Emerson College of Oratory, Boston.

The festival is under the auspices of the Knights of Pythias and under the distinguished patronage of His Excellency the Rt. Hon. Viscount Willingdon and others. It is officiated by twenty well-known professional and business men of Vancouver and has an advisory committee of forty-one members. Its list of subscribers and donors of trophies number over 120 people. In its "foreword" in referring to the capital city's recent festival it says: "There has also been established in the City of Victoria an annual festival which this year had 451 entrants and gives promise of rendering a very real service to that community."

To-night (Monday) at the Wesley Church, where the evening sessions are to be held, an address of welcome will be made by the mayor of the city, Louis D. Taylor, and Rev. A. H. Sovereign, introduced by E. S. H. Winn, K.C., the chairman of the executive committee.

On Wednesday His Honor Randolph Bruce, Lieutenant-Governor, will make an official visit to the festival, and Dr. R. E. McEachnie, Chancellor of the University of British Columbia, will act as chairman at the final big concert on Saturday evening.

Many contestants are going over from this city and among these are the Schubert Club and the First United Church Choir. The latter organizations are expected to uphold Victoria's choral traditions, the last mentioned having on some former occasions carried off the highest choral marks.

The following local entrants will compete on the day and in the subjects as are here set forth:

Monday—Pianoforte, primary, Katherine Seale. Girl's solo, Lillian M. Young. Catherine Craig. Male voice choir, boys under fifteen years, sixteen to twenty-four voices, Christ Church Cathedral Chorists, conductor, W. H. Rose. Vocal solo (special), Scottish folk songs, female voices, Marjorie Watson. Mrs. Lily Wilson. Vocal solo (special), Scottish folk songs, male voices, George L. Gray. Boy's solo, under fifteen years, George Tate.

Tuesday—Duet, junior, under seventeen years, soprano and alto, Evelyn M. Vallant and Catherine Craig. Young vocalists, soprano, under nineteen years, Evelyn M. Vallant. Elocution, under ten years, Jean Craig, Raymond H. Rose. Pianoforte, elementary, Beale Crowther. Elocution, men, open, Wilfred Ord, Ralph Birrell, G. H. Hallett, Robert Lee.

Wednesday—Elocution, girls under fourteen, Lillian M. Young, Catherine Craig. Ladies, open, Nellie Scowcroft. Vocal solo, soprano, Marjorie Watson. Mrs. W. H. Wilson. Isabelle Crawford. Mrs. Mary V. McRae. Intermediate church choir, twenty-five to thirty-five voices, First United Church Choir (Conductor Jackson Hanby), three entries.

Thursday—Violin, elementary, under fifteen years, George Tate (twenty-two entries). Elocution, boys, under sixteen years, Roy Goldfinch. Vocal solo, mezzo-soprano, Merle A. North. Vocal solo, baritone, Sydney White, George L. Gray, William Munro. Vocal solo, tenor, George F. H. Farmer, David C. Hughes, William H. Jaques, Sidney Petich. Pianoforte, intermediate, under nineteen years, Evelyn M. Vallant.

Friday—Vocal solo, contralto, Mrs. Mary E. Traves. Esther May, Mrs. Ursula Aldous, Mrs. Georgina Watt. Original composition, orchestra, amateur, Wylie Grant. "Elegy" bass, An-

drew R. Fritz, Percy J. Edmonds. Ladies' choir, twenty to forty voices, Schubert Club, Conductor Frederic King (eight entries).

Saturday—Vocal solo, gold medalists' championship competition, female, Mrs. Arthur Dowell, Norah E. Jones.

JUVENILE COMPANY TO PLAY AT ROYAL

Hamilton Douglas presents at the Royal Victoria Theatre next Saturday afternoon and evening, June 4, a troupe of the cleverest juvenile singers, dancers, comedians of Canada and the United States. There are 150 in the troupe and they carry their own orchestra. The troupe does an after piece which consists of everyone in the show taking a part in a circus. This will be staged after the matinee.

The doll army will make a parade preceding the matinee.

U.S. CHINESE POLICY DRAWS CRITICISM

Foreign Residents Thanked British For Stand in Orient

"Citizens of the United States who are living in China are ashamed of the policy taken by their country in regard to the present trouble in China," said H. J. Wallem, large shipowner of Bergen, Norway, who was a passenger arriving here yesterday aboard the Empress of Asia. He is en route home.

"Great Britain's stand in China met with praise from all nationalities and there would no doubt have been a great deal more trouble if Britain had not done what she did," Mr. Wallem said.

It was in Mr. Wallem's office in Hongkong that a large number of foreign residents of China gathered to compose a telegram which they all signed and sent to the British Government thanking them for the action they took in the Orient.

"If the Chinese mob had ever taken it into their heads to fight the foreigners they wouldn't be a white, black or any other foreigner living in China to-day," the visitor declared.

Mr. Wallem, who is the director of a large fleet of ships, owns the steamships Stordalen and Erviken which are frequent visitors to this port. Upon his arrival here he was met by Henry King, of King Brothers, Victoria agents for Mr. Wallem's vessels.

Knights of Pythias and Pythian Sisters Chose Their Officers

T. J. Wadman of Revelstoke was chosen Grand Chancellor of the Knights of Pythias of British Columbia at the annual convention of the order held at Penticton last week. On Thursday the annual session of the Pythian Sisters was held and Mrs. Cumberland of Merritt was nominated as Grand Chief.

The full election of officers for both lodges resulted as follows:

Grand Chancellor, T. J. Wadman, Revelstoke; grand vice-chancellor, J. A. McKinnon, Trail; grand prelate, T. J. Fletcher, Powell River; grand keeper of records and seal, F. J. Harding, Vancouver; grand master of exchequer, C. L. Behnson, Victoria; grand master of arms, L. Dashwood-Jones, Vancouver; grand inner guard, L. Cummings, Chase; grand outer guard, E. A. Hill, Cranbrook; supreme representatives, E. S. H. Winn, Vancouver; senior member, W. G. Hooper, Vancouver.

Grand past chief, Mrs. E. McPail, Powell River; grand chief, Mrs. Cumberland, Merritt; grand senior, Mrs. Glover; grand junior, Mrs. Miller; grand manager, Mrs. Slaughter, grand mistress, Mrs. C. Mrs. Nellie Beach, Vancouver; grand mistress of F. Mrs. Townley, Vancouver; grand outer guard, Mrs. Reisterer, Penticton; grand press correspondent, Mrs. Savage, Duncan; supreme alternate, Mrs. Trempham; supreme senior alternate, Mrs. Atkin; supreme junior alternate, Mrs. Herman.

ONTARIO LIQUEUR SALES

Toronto, May 30.—The order-in-council bringing the Ontario Liquor Control Act into force and appointing the Liquor Control Commission was signed by the Lieutenant-Governor Saturday. Stores will be opened on June 1.

Price, In Greatest Form of Career, Too Good For Youngster

Clarence Brynjolfson Failed in Attack on Uplands Club Championship

New Champion Has 72 in Morning, Coming in 33; Prize For Youngster

A. V. Price can write a golf title after his name once again. At various times in the past he has been the B.C. amateur golf champion, city titleholder and club champion of the Uplands Golf Club, but recently he has held no title, although he has been constantly in quest of them. Yesterday at the Uplands course he won the club championship after one of the most finished displays seen there. He defeated Clarence Brynjolfson, the fifteen-year-old schoolboy, by 7 and 5 in the thirty-six hole final of the club championship.

Price showed that he is now playing better golf than at any time in his career. It would have taken a Bobby Jones or a Von Elm to have held him yesterday, and Brynjolfson was by no means disgraced by his defeat. The youngster, slightly nervous at the start, caught the veteran southpaw at the peak of his game, and only in the afternoon was he successful in holding him in check. Price's putter was his best friend again and on ten greens he required but one putt.

AWAY LIKE A FLASH
Price started off by winning the first three holes with a "four," while Brynjolfson required an extra stroke at each of them. Brynjolfson halved the fourth and fifth and then won the sixth. The next was halved and Brynjolfson gained back another hole at the eighth by holing out for a birdie "three." They halved the ninth, which left Price one up at the turn.

On the way in Price shot a remarkable 33, three under par, getting three birdies and playing the other six holes in par. Price won six holes, while Brynjolfson did not hole out for a win. He had to be content with halving three holes. Price had a "four" at the tenth and then had three "threes" in a row. He had a "two" at the short sixteenth. Price's score for the morning round was 72, one over par, while Brynjolfson had a pair of "forties" for an even 80.

EVEN IN AFTERNOON
In the afternoon Price did not shoot so brilliantly as he did in the morning, and there was little difference between the play of the two. Brynjolfson, as a matter of fact, was one stroke better than his rival on the way out, taking a 41 to Price's 42. Brynjolfson won two holes. Price one, while the rest were halved.

Price won the twenty-eighth and they halved the next. Brynjolfson pulled off a beautiful "three" on the thirtieth, and won it, but when Price captured the next with a "four" the match ended.

A gallery of about 400 followed the match and when the deciding putt was struck both players were given a great ovation.

The scores for the morning round were:
Out—Price . . . 44455544—39
Brynjolfson 55544553—40

In—Price . . . 433354245—33
Brynjolfson 534474346—40

The scores for the afternoon rounds were:
Out—Price . . . 45455554—42
Brynjolfson 55544643—41

In—Price . . . 4344 . . . 15
Brynjolfson . . . 5333 . . . 16

At the completion of the matches and competitions S. J. Hall, president of the Uplands Club, presented the winners with their prizes. He pointed out the great success which had attended the championship this year. He also alluded to the fine showing made by the junior players, five of whom were among the first twenty in the qualifying round.

PRESENTED WITH CLUBS
In honor of the fine showing made by Brynjolfson he was the recipient of an unexpected honor. J. H. "Joe" Lee promised Brynjolfson a set of the ten best clubs in the workshop of Walter Gravin, the pro, if he won the title. When the youngster lost it looked as though his club had vanished, but Mr. Lee made the lad's heart pound with joy when he presented him with seven beautiful clubs. The club gave him a golf bag as his prize runner-up.

The results of the various flights and competitions were as follows:
Championship flight—A. V. Price defeated C. Brynjolfson, 7 and 5.
First flight—A. C. Falk defeated A. Craig Jr. 1 up.
Second flight—H. E. Brown defeated J. A. Oddy, 2 up.
Third flight—W. Turnbull and D. Randall to play.
Fourth flight—G. S. Carr defeated A. Craig Sr. 1 up.
Fifth flight—E. L. Stock defeated Gordon Ellis at twentieth.
Driving competition—Best average, P. Edmonds, 220 yards; longest ball, Frank Moore, 273 yards 3 inches.
Approaching competition—Best average, H. Brynjolfson, 32 feet; closest ball, Dr. C. N. Westwood, 8 inches.
Putting competition—First, W. Leith; second, A. Lawrie, after playing off.

Irish Footballers Beaten at Own Game
New York, May 30.—Ireland's touring Gaelic football team from County Kerry was beaten at its own game in its first engagement on foreign soil yesterday when a picked team of New Yorkers who learned the game in the Old Country downed the invaders, 10-10.

EAGLES AND SONS BATTLE TO-NIGHT FOR LEAGUE LEAD

The league leadership will be at stake when the Sons of Canada and Eagles meet to-night at the Royal Athletic Park in a senior amateur baseball game. The teams will start play at 8:15 o'clock.

Ray Parfitt will be Cy Mine's choice for mound duty while Howe or Pollard will oppose him in the box for the Eagles.

At the present time the Eagles are holding down the top berth while the Sons are in the cellar. Should the Natives come through with a victory they will tie up the league standing and all the teams will be on even terms with two victories and two defeats apiece.

The Sons held a stiff workout at the park yesterday morning and it is expected some changes will be seen in their line-up. Jimmy Post will most likely take the second base position while Devereaux will move to the field.

Morgan Winner of Vicious Bout Over Vancouver's Pride

Vic Foley Outfought by Champion in Twelve-round Bout Before Good Crowd

Vancouver, May 30.—Displaying all the tricks of a champion, Tod Morgan of Seattle, easily retained his title of junior lightweight champion of the world here Saturday night, when he defeated Vic Foley of this city, after four rounds of vicious milling. The champion scored two knockdowns, one for the count of eight and the other for a two-count, in the second and third rounds respectively. Referee Joe Waterman of Portland, announced that he based the decision on these two knockdowns and the champion's winning of the majority of the rounds. Foley weighed 125½ pounds and Morgan 128½.

Over 5,000 fans watched the battle which was one of the most savage ever staged here. Morgan's long reach and the challenger's inability to state off a pile-driving right to the kidneys spelled his defeat. After the second round Foley appeared to be a knockout victim but he fought gamely and was seldom in danger of being put away.

Foley was only awarded one round by the ring experts, the sixth, which he won by staging a rally which the champion failed to counter-balance. Three rounds, about five furlongs, the remainder went to the champion.

HORSE RACING

Calgary, May 30.—Saturday's results were as follows:
First race, about five furlongs—1, Lady Herod, \$10.90, \$5.60, \$5.05; 2, Alloy Boy, \$3.90, \$3.55; 3, North Shore, \$5.00, \$4.75, \$2.40.
Also ran: Lucky Lou, Jack Fountain, St. Ann, So Smart, Crest and The Minutes.
Second race, about five furlongs—1, Bill McCloy, \$4.70, \$3.20, \$2.70; 2, Twin Fox, \$11.60, \$6.70; 3, Roe, \$3.50, Time 59.
Also ran: Gasin, Suzette, Dorothy Drew, Hypnotic and Capilano.
Third race, about five furlongs—1, Cible, \$5.95, \$3.45, \$2.45; 1, Black Pat, \$4.00, \$2.50; 2, Towels, \$2.30, Time 58-1-5.
Also ran: Desman Star, Shasta Girl, John Casburn and Parewell.
Fourth race, one mile and a sixteenth—1, Nebraska Lad, \$14.70, \$4.50, \$2.75; 2, Wilfrude Wood, \$2.30, \$2.30; 3, Jola Shire, \$2.70, Time 1:53-4-5.
Also ran: Sylvanus and Six Pence.
Fifth race, about five furlongs—1, Unlucky, \$11.90, \$3.90, \$3.35; 2, Billy T, \$2.85, \$2.60, \$3.30; 3, Morning Orb, \$3.70, Time 57-2-5.
Also ran: Sanabar, Rochester II, Miss Jennings, Van Loo and Borodale.
Sixth race, six-and-a-half furlongs—1, Virginia Moore, \$4.40, \$2.70, \$2.75; 2, Cordovan, \$3.55, \$3.10; 3, Billy Skidd, \$3.70, Time 1:25.
Also ran: La Una, Runleigh, Nan's Fortune, Neptune and Calico.
Seventh race, mile and an eighth—1, Dumbfounder, \$6.25, \$2.70, \$3.20; 2, Preserver, \$2.80, \$2.70; 1, Erica, \$3.20, Time 1:53-4-5.
Also ran: Alice Lorraine, Metal, Ronaldo and Bowerpit.

Calgary, May 30.—Eyes of the horse-racing and sports fans of the sport of kings are now turned towards the Chinook Jockey Club Park, four miles south of the city, where the annual Spring meet will commence on Wednesday, June 1, and continue until Wednesday, June 8, inclusive.

The Victoria Park meet came to a close Saturday afternoon, when an exceptionally large crowd braved the threatening weather to enjoy a wonderful card that had two outstanding features, the Speed Handicap, which was won by Unlucky, and the Scott Handicap, which was won by Dumbfounder.

Close finishes, daring and skillful riding, and fine starting all co-operated in providing the patrons with some rare sport on get-away day. In most events the thoroughbreds ran true to form, particularly Bill McCloy, Cible and Virginia Morse.

To Organize V.I.A.A.

A meeting will be held this evening at 8 o'clock in the lounge room of the Chamber of Commerce for the purpose of reorganizing the Vancouver Island Athletic Association. Anyone interested is invited to attend.

Juvenile Meeting

A meeting of the Juvenile Football League will be held this evening at 8 o'clock in the Y.M.C.A. All clubs are asked to have representatives present.

Juniors Star When Victoria Net Team Loses To Seattle

Young Players Give Splendid Account of Themselves at Victoria Courts

Visitors Won Ten Out of Thirteen Matches; Doubles Were Thrilling

Seattle's tennis players fully lived up to their reputation yesterday afternoon at the Victoria Tennis Club, when they defeated the local net artists by ten matches to three. The visitors accounted for their victories by annexing seven of the nine singles, and three out of four of the doubles. A large crowd watched the matches.

Although beaten the Victoria team was by no means outclassed. Seven of the thirteen matches went to three sets before being decided. A most pleasing feature of the play was the performance of the younger members of the local team. All of them gave a good account of themselves, and will undoubtedly put Victoria more firmly on the tennis map before long.

TIRENESE WINS
In the feature match of the singles Leon de Turenne, the Canadian singles and doubles champion, gave an impressive display in scoring a clean set win over March Gordon. The titleholder's service was at its best, and his smashing was more deadly than ever.

Bud Hocking gave his many supporters a thrill when he came through strongly in the third set of his match with John Ryan to gain a well-desired victory.

Jimmie Cunningham put up a great fight against Wallace Bates, but in the end had to bow before the speedy chops of the former Canadian champion.

Eric McCallum almost won his match against Wendy Langille, but the latter managed to pull the game out of the end had to bow before the speedy chops of the former Canadian champion.

PLENTY OF EXCITEMENT
It was in the doubles that most of the excitement occurred. Although the invaders captured three of the four tilts, two of these went to the limit and both were only won after an uphill struggle.

Gordon and McCallum came within a point of trimming Bates and Langille in straight sets, eventually losing 4-6, 6-4, 6-4.

In the opinion of many the match between Steve Jones and Eric Martin, of Victoria, and Clist and Ketchum of Seattle, was the best of the entire afternoon. For four sets the battle ebbed and flowed with the Seattle boys, finally getting home at 6-8, 5-7, 10-8, after trailing 4-5 and 0-4 in the deciding set. All four players turned in sparkling games.

Detailed results follow, with the Seattle player named first in each case:
SINGLES
Leon de Turenne defeated D. M. Gordon, 6-3, 6-3, 6-2.
Wallace Bates defeated J. Cunningham, 6-4, 3-6, 6-3.
Wendy Langille defeated E. McCallum, 4-6, 10-8, 6-0.
John Ryan lost to Hocking, 6-2, 4-6, 6-0.
C. C. Tupper defeated S. Jones, 6-4, 4-6, 6-1.
A. G. Pringle defeated E. Martin, 7-5, 4-6, 6-3.
P. Ketchum defeated C. Collison, 6-3, 6-1.
W. Warren defeated W. Merston, 6-4, 6-3.
A. Clist lost to Austen Leigh, 6-2, 7-5, 6-3.

Mrs. Wilding Still Uplands Champion

Mrs. F. Wilding retained her title as women's champion of the Uplands Golf Club by defeating Mrs. A. M. Boyd, 5 and 4, in the finals at the Uplands on Saturday.

The scores were:
Out
Mrs. Wilding . . . 44455546—42
Mrs. Boyd . . . 55544655—46

In
Mrs. Wilding . . . 444445—21
Mrs. Boyd . . . 54446—23

Miss Grant won the first flight, defeating Mrs. Tanner one up in the finals.

Miss MacNaughton won the second flight by defeating Mrs. Peachey five and three.

In the putting competition Mrs. Chaloner, with a score of seventeen, won the contest. Mrs. Clegg was second with a round of eighteen.

Mrs. S. J. Hall presented the prizes to the winners. Announcement was made that a handsome silver trophy had been donated by the Jameson Motors for a ladies' competition to be played in September. Arrangements for play will be announced later.

PHILADELPHIA BEATEN

Philadelphia, May 30.—Uruguay soccer team defeated the Philadelphia soccer team here Saturday, 4-1.

St. Cloud, France, May 30.—William T. St. Cloud, American star, continued his whirlwind progress through the international hard court tennis championship tournament to-day, defeating the South African champion, Louis Raymond, 5-7, 6-2, 6-4, 6-3.

St. Cloud, France, May 30.—Henri Cochet, French tennis champion, narrowly escaped defeat at the hands of T. Tiffner of Holland in the hard court tennis championship yesterday. Timmer took the first two sets and Cochet the next three. The scores were 6-8, 11-6, 6-3, 6-3, 6-5.

Tiffner and Hunter in a doubles match, defeated C. Kleindahl and Czevaterinski of Poland, easily 6-0, 6-1, 6-2.

Scottish Boxing
All members of the 16th Battalion Canadian Scottish Regiment who have been boxing or are interested in this line of sport are asked to turn up on Tuesday night at the Armories at the usual time. Arrangements will be made with the instructor, Sergeant Sheasby for the programme of events to be staged at the inter-company boxing tournament to be held Saturday, June 4.

Alex Beats George
Alex Straith won the finals of the first flight of the club championship of the Colwood Golf Club yesterday by defeating his brother, George, 5 and 4. The match attracted quite a gallery and aroused much interest.

Scots Beaten 3-2 In Match With Toronto

Never Before Has Team Sent Out by Either English or Scottish Football Association Been Defeated in Canada; Stern Defence of Toronto Frustrated

Fierce Efforts of Scotsmen to Even Score; Bad Shooting Hurt Visitors' Chances

Toronto, May 30.—The touring Scottish football team, including six internationalists, met defeat in the third match of their Canadian tour, when an eleven representative of Toronto defeated them three to two here Saturday. The game, played before 10,000 spectators in ideal weather, proved the most brilliant exhibition of life dribbling code ever witnessed in Canada. Never before has a team sent out by either the English or Scottish Football Association met defeat in Canada.

Gallagher opened the scoring after twelve minutes' play, but before half-time the locals scored twice through Graham and Faulkner. In the second half, Graham added a third counter. McLean scored the Scots' second, while a Toronto player was receiving medical attention.

The local men deserved their victory in that they accepted opportunities, while their more skillful opponents, although in position to score much more frequently, almost invariably shot wide or over the bar.

During the opening stages of the game the tourists gave an exhibition of footwork and combination for which Old Country teams are famous, but after Toronto equalized the score, the game underwent a change. Encouraged after scoring their initial goal, the Torontonians put such energy into their play and marked their opponents so well that the Scotsmen wasted no time on exhibitions of footwork but strove desperately to score. Time after time the Scottish forwards pressed into the vicinity of Halliwell, but the forwards could not find the net, Buchanan particularly failing to accept several chances when favorably placed.

During the last ten minutes the Scots penned the home team in their own half, but their desperate efforts to draw level were of no avail.

The defence of the Toronto team was the outstanding feature of the game. Herring and Calder played with perfect understanding in front of Halliwell, who did his work well.

The two backs, Blair and McStay, were the best of the Scottish defence players, the intermediate line not coming up to expectations. Gallagher was the best of the Scottish advance line, but the others seemed unable to find their shooting boots.

The lineup was as follows:
Scotland—Hamilton, W. McStay, Blair, Morrison, J. McStay, Swallow, McLean, Gallagher, Buchanan, Cunningham and Cook.
Toronto—Halliwell, Herring, Calder, Mathews, Williams, McRone, Moir, Clu-low, Graham, Lavery and Faulkner.

HAMMOND EQUALS BATTING RECORD OF FAMOUS GRACE

Southampton, May 30.—The sensations of the early days of English cricket this year have been the performances of Hammond, one of the professionals on the Gloucestershire team, who scored a century in a match between his county and Hampshire he scored 192 and brought his total for the season up to 1,000. He thus equals the record of W. G. Grace and Tom Hayward, great figures of last century, in reaching four figures before the end of May.

Hammond's best work this year was produced in a match between Gloucestershire and Surrey when he scored a century in each innings.

Mrs. Wilding Still Uplands Champion

Mrs. F. Wilding retained her title as women's champion of the Uplands Golf Club by defeating Mrs. A. M. Boyd, 5 and 4, in the finals at the Uplands on Saturday.

The scores were:
Out
Mrs. Wilding . . . 44455546—42
Mrs. Boyd . . . 55544655—46

In
Mrs. Wilding . . . 444445—21
Mrs. Boyd . . . 54446—23

Miss Grant won the first flight, defeating Mrs. Tanner one up in the finals.

Miss MacNaughton won the second flight by defeating Mrs. Peachey five and three.

In the putting competition Mrs. Chaloner, with a score of seventeen, won the contest. Mrs. Clegg was second with a round of eighteen.

Pittsburgh Pirates Push Their String Of Wins To Eleven

Slaughter Pitching of Chicago Before 30,000 Fans; Giants Lose Again

Frisch Helps Cardinals Win; Yanks Swamp Boston, Ruth Hitting 13th Homer

New York, May 30.—The Yankees swamped the Boston Red Sox yesterday under a 15 to 7 count, Babe Ruth propelling his thirteenth home run of the year during a seven-run rally in the eighth. None were on bases at the time. Harley and Haney also hit for the circuit.

Airright pitching by Walberg and three long drives by Simmons gave Philadelphia a 6 to 1 victory at Washington yesterday. Simmons pounded out two doubles and a triple, driving in three runs and scoring one himself. Chicago outbatted the Tigers and took the closing game of the series at Detroit, 8 to 6. Ted Lyons, who pitched for the White Sox, gained credit for his eighth victory of the season.

The Browns garnered four runs in the sixth inning at St. Louis and won the first game of a double-header from the Cleveland Indians, 7 to 4. Kodapp hit a home run.

The Indians came back in the second game and reversed the score, 10 to 2. In the seventh Leaven of Cleveland hit into a triple play.

PITTSBURGH STILL WINNING
Pittsburgh at Chicago ran its winning streak to eleven games by hammering Chicago's pitching all over the lot to win, 8 to 5. Hack Wilson smashed a home run. Approximately 30,000 saw the contest.

Elliott held the New York Giants to four hits at Brooklyn and the Robins to two at Philadelphia. The four games were: Elliott fanned nine batters. Lindstrom's home run on top of a scratch single by Grimes gave New York its only runs in the third inning.

St. Louis hit Carl Mays at will and won at Cincinnati by an overwhelming score of 11 to 5. Frank Frisch took a prominent part in the victory, making three hits out of five times at bat, and cutting off at least two blows that would have been hits ordinarily.

MATSON AND MOORE MEETING IN FINALS OF OAK BAY GOLF

Jack Matson will defend his title as champion of the Victoria Golf Club against Dick Moore, B. C. amateur golf champion. Moore won his way into the finals early last week, while Matson completed his semi-finals yesterday. He defeated Art in Bradley, city champion, 2 and 1, in an interesting match.

The finals for the title, which will be over thirty-six holes, will likely be played on June 5.

English Ryder Cup Players in Matches

Philadelphia, May 30.—Six English Ryder Cup team golfers paired with the pick of the Philadelphia district golfers yesterday in a series of exhibition matches at the Lulu Country Club.

In the feature match Audrey Boomer, French open champion, and Belgian titleholder, teamed with Ducky Cochrane of Huntington Valley to defeat George Gadd of England and Geo. Hoffer of Philadelphia, 5 and 4.

TORONTO RUNNERS IN MONEY
Detroit, May 30.—Frank Zuno of Milrose A.C., New York won the eighth annual Irish-American A.C. marathon race here yesterday, negotiating the twenty-six miles in 2 hours 49 minutes.

Percy Weyer, of the Monarch A.C., Toronto, finished second, and Orville Garbutt, of the Gladstone A.C., Toronto, third.

MATSON AND MOORE MEETING IN FINALS OF OAK BAY GOLF

Jack Matson will defend his title as champion of the Victoria Golf Club against Dick Moore, B. C. amateur golf champion. Moore won his way into the finals early last week, while Matson completed his semi-finals yesterday. He defeated Art in Bradley, city champion, 2 and 1, in an interesting match.

MONTREAL GETS CANADA'S BIGGEST INSURANCE BUILDING

Here is the new head office building of the Sun Life of Canada, which is under way at Montreal. Some idea of the size can be gathered from the fact that the present building of the company is the one shown on the right. It has less than one-third the frontage of the completed edifice and lacks the twenty-four story tower, which will occupy more than half the entire frontage of over 400 feet on Dominion Square.

CUTLER OUT OF GAME

Pittsburgh, May 30.—Hazen Cutler, fleet outfielder of the Pittsburgh Pirates, will be out of the line-up for two weeks at least as a result of an injury suffered in Saturday's game with

St. Louis. An X-ray taken last night, revealed a small bone in Cutler's foot had been broken.

The outfielder was injured when he slid into third base in the seventh inning during a Pirate rally.

ROSSLAND BEAT NELSON

Nelson, May 30.—Rossland miners defeated Nelson seniors 8-3 here yesterday in the opening game of the West Kootenay Baseball League.

THINK MOVIES MAY HAVE HURT RUTH'S EYES AND
CAUSED HIS FAILURE TO HIT SO SUCCESSFULLY

BABE RUTH

Babe Ruth so far this season has been the big disappointment of the Yankees as to his batting.

That is a rather unusual statement when you figure that the Bambino is the greatest slugger of all time, feared by every pitcher in the American League.

In the first east versus east clash in the American League the Yankees have been winning without the batting help of George Herman Ruth, thus proving the club doesn't always go as Ruth does.

Proned to strike out a lot, because he is a free swinger, Ruth has been easier than usual this Spring to get rid of via the strike-out route. Lack of a timely hit on his part has kept the Yankees from winning several ball games that would now have them fairly well in front had they been placed on the right side of the ledger.

Why the slow start on the part of Ruth, who physically appears to be in great condition?

It may be simply one of those years in which Ruth is slow to hit his stride.

His Spring play has varied greatly during his major league career. Some seasons he has started whanging the ball on the nose from opening day, in others he hasn't got going until about the middle of May.

In many quarters, the belief exists that Ruth's eyes are not as keen as they were when he bumped the old apple for fifty-nine home runs and a major league record that should stand for some time.

No doubt the eyes are the real barometer of Ruth's batting power. He still takes the same terrific cut at the ball, his swing has lost none of the home-run snap, but unquestionably there isn't the perfect co-ordination that once existed between mind and muscle. The eye isn't timing the ball as well.

When Babe hits them on the nose to-day, the ball travels as far as it ever did, proving he still has the old-time power. However, he doesn't hit them so often. He pops up more frequently, than he used to and once again lack of proper timing is the answer.

The argument has also been advanced that Ruth's work as a Theatopian and movie picture actor hasn't done the well-known eyes any good.

For about three months last Winter Ruth did his stuff before the footlights. Finishing his vaudeville engagement, he hopped from the stage to the movies, just having enough time to finish a feature picture before Spring reporting time. A salary difference made him at least a week late for training.

It is a well-known fact that the powerful Klieg lights used in the process of making motion pictures are not regarded as eye tonic for a home-run hitter. Perhaps the glare of the Winter work has temporarily hurt Ruth's vision.

Whatever the cause, the Babe isn't as yet busting them as of yore. However, Miller Huggins isn't worrying, just so long as Lou Gehrig and the rest of the boys are cutting up at the bat. "Give the Babe a little time," says Huggins, "he's going to make a lot of pitchers suffer for this slow start."

STANDARD FURNITURE CO.
EXTENSION FURNITURE SALE

DIED

LANDALE—On May 27, 1927, there passed away at St. Joseph's Hospital, Mrs. Maria Landale, widow of the late Alfred Landale, aged 82 years, born in London, England. The deceased has been a resident at the Aged Ladies Home for some years.

Funeral service was conducted by Rev. A. de B. Owen this afternoon at 2:30 o'clock at St. Joseph's Church. The remains will be forwarded to Vancouver for cremation on Tuesday afternoon's boat.

MELHUIS—In this city, on Saturday afternoon, at the Royal Jubilee Hospital, Maud Marion Melhuish, aged 21 years, beloved wife of Alfred Wilfred Melhuish of 1247 Johnson Street. The late Mrs. Melhuish was born in Victoria, and is mourned by her husband and two children: two sisters, Mrs. Gordon Hallett of Victoria and Mrs. Paul Kramer of Tacoma, Wash.; also one brother, William O. Brady of Victoria.

The funeral will take place on Tuesday afternoon from Melhuish Bros. Funeral Home and proceed to Christ Church Cathedral, where service will be held at 2 o'clock. Interment will be made at Ross Bay Cemetery.

Langford

Langford, May 31—Ernest Lequesne, who was appointed as a delegate to the Liberal meeting held at Lutton on Saturday night, states that he will be unable to accept the nomination.

Mrs. W. T. Dixon of "Bryn Mawr" met with a serious accident on Saturday evening, being knocked down by an automobile when leaving the post office. Dr. David Donald was sent for and found Mrs. Dixon suffering from a severe wound at the back of her head, besides being badly bruised.

A jolly picnic was held by the third and fourth grades of Langford school under the supervision of their teacher, Miss Lois Peacey, on Saturday after-

noon at Langford Lake. The children thoroughly enjoyed bathing and paddling. Merry games were played and a delightful tea in which fruit and candies were chief attractions. The following children were present: Elizabeth Welsh, Nellie Harrison, Eileen Hincks, Frances Vale, Winnifred and Margaret Guy, Georgina Cooney, Jean Clarke, Betty Cooney, Victoria Wilson, Allen Jackson, Dean Johnston, Howard Smedley, Tom Dixon, Stanley Jackson and Earl Hemsworth.

A curlew recently shot at Sheemore, Ireland, had on one of its legs an aluminum ring with the inscription: "Museum Goteborg, Sweden, 1869."

WAR ENEMIES ARE PALS NOW—In the closing days of the World War, at Passchendaele, two men poured bullets at one another at fifty yards. They were Harry Ratcliffe (left), then a lieutenant in the "Little Black Devils," a Canadian machine gun battalion, and William Seligman (right), then a private in the Imperial German Infantry. Now they are fellow engineers for an electric company in Chicago.

RETIRE FROM EMBASSY POST

Sir H. Parlett, Councillor to
British Embassy in Japan,
Passes Through

Has Been Over Forty Years
in Japan; Benevolent Acts
Endeared Him to People

After nearly forty years of service for Britain in Japan, during which time he made himself beloved by the Japanese people, Sir Harold G. Parlett, Councillor to the British Embassy in that country, has retired. Sir Harold passed through Victoria yesterday morning aboard the R.M.S. Empress of Asia, en route to London, England, with Lady Parlett.

Sir Harold has been embassy councillor for eight years. Before that time he was British consul at Daijien. Since 1890 he has been actively engaged in the affairs of the country, taking a position in his twenty-first year as student interpreter in Japan.

CONSULATE POSITIONS

Eight years later, in 1898, he became acting-registrar of the British court in Yokohama, and the following year was appointed assistant secretary at His Majesty's legation in Tokio. This was followed by consulate positions at Hakodate, Nagasaki and finally Daijien, acting for nine years at the latter port. For several months before his departure, Sir Harold had been seriously ill, but is making good progress toward recovery.

Sir Harold has left behind him in Japan two outstanding memorials which will keep his name in the thoughts of the Japanese people for years to come. Probably his most important contribution to the civilization of the country is his English-Japanese dictionary, which he compiled in conjunction with E. M. Hobart-Hampden, and which has made him especially well-known. Another almost as popular act was the stocking by him twenty-five years ago of the Yukawa River with trout. These trout, a live shipment of which was brought to Japan in 1889 by Sir Harold, have thrived wonderfully in the river, and have made the place a noted resort for anglers. They have been christened "parlett" after him.

MANY TRIBUTES

Throughout Japan Sir Harold was the subject of many tributes in the press before he left for England. The Tokyo Nichi Nichi, a native Japanese paper, after explaining the stocking of the river, says:

"The fishing season opens on June 1, but there is among the people of Nikko, a feeling of sadness as their benefactor is to bid farewell to the country. In acknowledging their indebtedness to Sir Harold, who will thus be long remembered as a true and unselfish giver, a group of men said that he used to come to Nikko every summer, but never went home with more than ten of the now abundant 'parlett.' The rest he would always liberate."

EXPERT ANGLER

Sir Harold himself is a keen and expert angler.

ELECT OFFICERS FOR ESQUIMALT

Milne Heads Liberal Association in Big Island Constituency

No Politics in Road Appropriations, Says Sutherland; Costs Reduced

Liberals of Esquimalt electoral riding elected officers for the next year at Lutton Hall Saturday evening. E. Milne of Sooke was chosen president; E. Clarke of Shirley, vice-president, and H. G. Macdonald of Sooke, secretary-treasurer.

Hon. W. L. Mackenzie King, Prime Minister of Canada, and Premier Oliver of British Columbia, were elected honorary presidents. Members of the executive will be elected by the various local branches of the Esquimalt Liberal Association.

A resolution moved by A. T. Weight expressed regret at the illness of Premier Oliver and hope that he would recover speedily. J. Stuart Yates voiced regret at the illness of Hon. William Sloan, Minister of Mines. Resolutions of confidence in the Federal and Provincial Governments also were carried.

NOT PENALIZED

Hon. W. H. Sutherland, Minister of Public Works, gave the meeting information about the policy of his department. "I don't agree with the principle that ridings which elect Conservatives should be penalized," the Minister asserted. "Because his riding has a majority of Conservatives why should the people be penalized in the matter of roads? I have tried to deal fairly by all ridings in the Province."

Esquimalt, the Minister emphasized, had received a fair share of road expenditures with other ridings. He told of successful work carried on in the constituency in the oiling of roads. The methods evolved by the Public Works Department, he said, were remarkably economical and produced valuable results, as evidence of which he pointed to the condition of the Malahat Highway and parts of the Sooke Road which have been treated of recent years.

COSTS ARE CUT

Replying to Conservative criticism of the cost of the road-upkeep and building under his administration, Dr. Sutherland quoted figures to show that these costs were far lower now than under the former Government. While it had cost \$2.90 a yard to handle gravel in Esquimalt in 1916, in 1926 it had cost only ninety-five cents, he stated. A similar saving had been made in grading.

Road work now under way not only was saving money, but its results reduced the cost of operating automobiles, thus benefiting every driver, Dr. Sutherland stated.

C. H. O'Halloran, president of the Nanaimo Federal Liberal Association, spoke briefly, reviewing organization work in the constituency and praising the policies of the Federal Government.

The only international exhibition fair to be held in the Balkans this year will be that at Tallin, Reval, in the Fall.

After having worked for thirteen years without wages a domestic in Ireland has used the estate of her employer who recently died.

ARE YOU HONEST?—This pile of slugs represents \$2,500 lost in one day by a slot machine firm. Here's Exhibit A, submitted by vending machine men in their charge that people are not honest. The stack represents \$2,500 losses, taken in one day by one vending machine company, each piece in the stack having been used instead of a dime. The \$2,500 was more than sixty-three per cent. of that particular day's income. The ruler in the background is 36 inches long. Nearly sixty per cent. of patrons of vending machines operated throughout by one firm are petty thieves, the president of the firm says. Others report larger or smaller percentages, with an average around fifty per cent., depending not on the type of merchandise, but the efficacy of the machines. And such ingenuity as these patrons had! A collection of slugs, representing losses of thousands of dollars, may be found at the offices of any vending machine company. There will be found street car tokens, beer checks of bygone days, buttons, pieces of tin, paper clips, valueless foreign coins, coils of wire—all evidences of ingenuity put into the pilfering of a nickel, dime or quarter product.

PREDICTS PROLONGED STRIKE IN CHINA

Mrs. O. St. Claire O'Malley,
Wife of Adviser to British
Legation, Visitor Here

"China is at the present time in a state of disruption out of which order will not be restored for a great many years," stated Mrs. O. St. Claire O'Malley, wife of the adviser to the British Legation at Peking, who passed through Victoria yesterday aboard the Canadian Pacific liner Empress of Asia.

Mrs. O'Malley is en route to England accompanied by her two daughters and young son after spending fifteen months in the Orient. She is returning to the Old Country due to the fact that one of her daughters has been very ill. Apart from the trouble in China Mrs. O'Malley regards it as a beautiful country, which she was reluctant to leave.

Mrs. O'Malley told a Times representative that her husband will remain in China for at least two or three years before he returns to his native country.

When she left Peking everything was as quiet and peaceful as in an old English village, the visitor said. She based her opinion of prolonged trouble in China on her study of the history of the Orient.

"In past generations foreign dynasty in China has lasted for a lengthy period, and this has always been followed by disruption and decay, which has stretched over a period of several years, and the present trouble will prove no exception," Mrs. O'Malley declared.

"Speaking for the modern Chinese the stand taken by Great Britain has met with their approval. They consider Britain has gone a long way, and they were more than pleased with the Hankow agreement, and also the terms of the note announced by Britain around last Christmas," Mrs. O'Malley concluded.

COMMUNISTS IN CHILE ARRESTED

Santiago, Chile, May 30.—Proof that Communists in Chile worked under orders of Arcos House, London, is alleged by the police to have been discovered in letters found in the quarters of Macloui Galdames, alias Teodoro Loro, Communist newspaperman, who was arrested here yesterday.

Two Argentine Communists were detained with Galdames. They probably will be deported to Buenos Ayres.

THE RED CROSS WORKSHOP

554-6 Johnson Street (Just below Government Street.) Phone 2169

A RED glare in the sky . . . the crackling roar of flames as they sweep from tree to tree . . . none but those who have been through it can fully sense the terror and suffering that a forest fire brings to Canada's hinterlands.

In a flash, a whole community may be made homeless . . . without shelter, without food, suffering frightful injuries or mourning for dear ones caught in the talons of the red demon.

Such catastrophes wring our hearts. Fires . . . mining disasters . . . disease epidemics . . . happily they occur but seldom. But when they come, they find the Red Cross organized to render prompt relief.

In every Province, the Red Cross is prepared for instant action in such emergencies . . . In the stricken area confusion reigns . . . In the nearest Red Cross headquarters, the machinery for prompt, efficient measures works quickly and smoothly, drawing on a Canada-wide organization for help if need be.

Since the War
THE RED CROSS
has disbursed
7 Million Dollars

for the Soldiers, Women, Children
and Frontier Families of Canada.
"STILL SERVING"

Medical supplies are kept ready. Nurses and doctors can be quickly mobilized. Tents, blankets, field kitchens, oil stoves, iron beds, mattresses from the Government's military stores are at the instant disposal of the Red Cross. As fast as trains can travel, aid is rushed to the sufferers . . . no confusion or delay.

When the town of Bowden, Alberta, was partially destroyed by fire, the Red Cross furnished assistance for some 88 families made homeless. . . . Similar aid was given to the village of St. Joseph d'Alma, Quebec. In the disastrous forest fires that swept Northern Ontario in 1923, and in the Cochrane

typhoid epidemic, the Red Cross played an efficient part . . . In these and scores of other cases the Red Cross relieved and succored thousands of sufferers.

By supporting the Red Cross, YOU make efficient relief measures possible. If disaster should strike any community, the RED CROSS is YOUR AGENT to give relief.

New achievements in entertaining are possible with Frigidaire--

THE delight which comes from serving foods and refreshment dainties that call forth unstinted praise from her guests, is one of the happy advantages enjoyed by the hostess who possesses a Frigidaire.

Frigidaire's ideal temperature preserves all the freshness and flavor of foods—a decided advantage in preparing dishes. It encourages new departures in chilled dainties—the serving of iced drinks in novel variety—because of the ease with which these may be kept in Frigidaire and the delightful flavor Frigidaire's correct temperature ensures.

Quantity production and the great buying power of General Motors have made possible prices that are outstanding in the value they represent. The General Motors Deferred Payment plan makes purchase easy. See Frigidaire in our nearest showrooms, or write for information.

In addition to household models complete in metal cabinets, and mechanical units for installation in standard ice-boxes, there are Frigidaires for apartments and commercial uses. Frigidaire branches have been in business in Canada for many years. Frigidaire is sold in all Canadian cities, towns and villages. A competent Sales and Installation Organization covers Canada.
